Measure "Rwanda (Kinyarwanda) (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c079_f',
      'denominator'
    );
```

Measure "Rwanda (Kinyarwanda) (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c079_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Semitic languages, n.i.e. (female)

Measure "Semitic languages, n.i.e. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c080_f'
    );
```

Measure "Semitic languages, n.i.e. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c080_f'
    );
```

Measure "Semitic languages, n.i.e. (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c080_f',
      'denominator'
    );
```

Measure "Semitic languages, n.i.e. (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c080_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Serbian (female)

Measure "Serbian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c081_f'
    );
```

Measure "Serbian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c081_f'
    );
```

Measure "Serbian (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c081_f',
      'denominator'
    );
```

Measure "Serbian (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c081_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Serbo-Croatian (female)

Measure "Serbo-Croatian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c082_f'
    );
```

Measure "Serbo-Croatian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c082_f'
    );
```

Measure "Serbo-Croatian (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c082_f',
      'denominator'
    );
```

Measure "Serbo-Croatian (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c082_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Shanghainese (female)

Measure "Shanghainese (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c083_f'
    );
```

Measure "Shanghainese (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c083_f'
    );
```

Measure "Shanghainese (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c083_f',
      'denominator'
    );
```

Measure "Shanghainese (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c083_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Sign languages, n.i.e. (female)

Measure "Sign languages, n.i.e. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c084_f'
    );
```

Measure "Sign languages, n.i.e. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c084_f'
    );
```

Measure "Sign languages, n.i.e. (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c084_f',
      'denominator'
    );
```

Measure "Sign languages, n.i.e. (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c084_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Sindhi (female)

Measure "Sindhi (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c085_f'
    );
```

Measure "Sindhi (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c085_f'
    );
```

Measure "Sindhi (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c085_f',
      'denominator'
    );
```

Measure "Sindhi (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c085_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Sinhala (Sinhalese) (female)

Measure "Sinhala (Sinhalese) (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c086_f'
    );
```

Measure "Sinhala (Sinhalese) (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c086_f'
    );
```

Measure "Sinhala (Sinhalese) (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c086_f',
      'denominator'
    );
```

Measure "Sinhala (Sinhalese) (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c086_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Sino-Tibetan languages, n.i.e. (female)

Measure "Sino-Tibetan languages, n.i.e. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c087_f'
    );
```

Measure "Sino-Tibetan languages, n.i.e. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c087_f'
    );
```

Measure "Sino-Tibetan languages, n.i.e. (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c087_f',
      'denominator'
    );
```

Measure "Sino-Tibetan languages, n.i.e. (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c087_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Slavic languages, n.i.e. (female)

Measure "Slavic languages, n.i.e. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_census.t004c088_f'
  );
```

Measure "Slavic languages, n.i.e. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c088_f'
    );
```

Measure "Slavic languages, n.i.e. (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c088_f',
      'denominator'
    );
```

Measure "Slavic languages, n.i.e. (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(

      'ca.statcan.cols_census.t004c088_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Slovak (female)

Measure "Slovak (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c089_f'
    );
```

Measure "Slovak (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c089_f'
    );
```

Measure "Slovak (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_census.t004c089_f',
    'denominator'
  );
```

Measure "Slovak (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c089_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Slovenian (female)

Measure "Slovenian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c090_f'
    );
```

Measure "Slovenian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c090_f'
    );
```

Measure "Slovenian (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}

      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Tagalog (Pilipino, Filipino) (female)

Measure "Tagalog (Pilipino, Filipino) (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c095_f'
    );
```

Measure "Tagalog (Pilipino, Filipino) (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c095_f'
    );
```

Measure "Tagalog (Pilipino, Filipino) (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c095_f',
      'denominator'
    );
```

Measure "Tagalog (Pilipino, Filipino) (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c095_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Taiwanese (female)

Measure "Taiwanese (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c096_f'
    );
```

Measure "Taiwanese (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c096_f'
    );
```

Measure "Taiwanese (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c096_f',
      'denominator'
    );
```

Measure "Taiwanese (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c096_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Tamil (female)

Measure "Tamil (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c097_f'
    );
```

Measure "Tamil (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c097_f'
    );
```

Measure "Tamil (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c097_f',
      'denominator'
    );
```

Measure "Tamil (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c097_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Telugu (female)

Measure "Telugu (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c098_f'
    );
```

Measure "Telugu (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
```

```
    'ca.statcan.cols_census.t004c098_f'
  );
```

Measure "Telugu (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c098_f',
      'denominator'
    );
```

Measure "Telugu (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c098_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Thai (female)

Measure "Thai (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c099_f'
    );
```

Measure "Thai (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c099_f'
    );
```

Measure "Thai (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c099_f',
      'denominator'
    );
```

Measure "Thai (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c099_f',
```

```
    'denominator'
  );
```

denominator: Selected non-Aboriginal languages (female)

Tibetan languages (female)

Measure "Tibetan languages (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c100_f'
    );
```

Measure "Tibetan languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c100_f'
    );
```

Measure "Tibetan languages (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c100_f',
      'denominator'
    );
```

Measure "Tibetan languages (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c100_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Tigrigna (female)

Measure "Tigrigna (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c101_f'
    );
```

Measure "Tigrigna (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c101_f'
    );
```

Measure "Tigrigna (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c101_f',
      'denominator'
    );
```

Measure "Tigrigna (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c101_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Turkish (female)

Measure "Turkish (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c102_f'
    );
```

Measure "Turkish (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c102_f'
    );
```

Measure "Turkish (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c102_f',
      'denominator'
    );
```

Measure "Turkish (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c102_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Ukrainian (female)

Measure "Ukrainian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c103_f'
    );
```

Measure "Ukrainian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c103_f'
    );
```

Measure "Ukrainian (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c103_f',
      'denominator'
    );
```

Measure "Ukrainian (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c103_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Urdu (female)

Measure "Urdu (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
```

```
    'ca.statcan.cols_census.t004c104_f'
  );
```

Measure "Urdu (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c104_f'
    );
```

Measure "Urdu (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c104_f',
      'denominator'
    );
```

Measure "Urdu (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c104_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Vietnamese (female)

Measure "Vietnamese (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c105_f'
    );
```

Measure "Vietnamese (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c105_f'
    );
```

Measure "Vietnamese (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c105_f',
      'denominator'
    );
```

Measure "Vietnamese (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c105_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Yiddish (female)

Measure "Yiddish (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c106_f'
    );
```

Measure "Yiddish (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c106_f'
    );
```

Measure "Yiddish (female)" percent of "Selected non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c106_f',
      'denominator'
    );
```

Measure "Yiddish (female)" percent of "Selected non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c106_f',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (female)

Other language spoken regularly at home - Single responses (male)

Measure "Other language spoken regularly at home - Single responses (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c003_m'
    );
```

Measure "Other language spoken regularly at home - Single responses (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c003_m'
    );
```

Measure "Other language spoken regularly at home - Single responses (male)" percent of "Total population excluding institutional residents (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c003_m',
      'denominator'
    );
```

Measure "Other language spoken regularly at home - Single responses (male)" percent of "Total population excluding institutional residents (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c003_m',
      'denominator'
    );
```

denominator: Total population excluding institutional residents (male)

English (male) 1205

French (male) 1206

Non-official languages (male) 1207

English (male)

Measure "English (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c004_m'
    );
```

Measure "English (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
```

```
    'ca.statcan.cols_census.t004c004_m'
  );
```

Measure "English (male)" percent of "Other language spoken regularly at home - Single responses (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c004_m',
      'denominator'
    );
```

Measure "English (male)" percent of "Other language spoken regularly at home - Single responses (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c004_m',
      'denominator'
    );
```

denominator: Other language spoken regularly at home - Single responses (male)

French (male)

Measure "French (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c005_m'
    );
```

Measure "French (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c005_m'
    );
```

Measure "French (male)" percent of "Other language spoken regularly at home - Single responses (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c005_m',
      'denominator'
    );
```

Measure "French (male)" percent of "Other language spoken regularly at home - Single responses (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c005_m',
      'denominator'
    );
```

denominator: Other language spoken regularly at home - Single responses (male)

Non-official languages (male)

Measure "Non-official languages (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c006_m'
    );
```

Measure "Non-official languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c006_m'
    );
```

Measure "Non-official languages (male)" percent of "Other language spoken regularly at home - Single responses (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c006_m',
      'denominator'
    );
```

Measure "Non-official languages (male)" percent of "Other language spoken regularly at home - Single responses (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c006_m',
      'denominator'
    );
```

denominator: Other language spoken regularly at home - Single responses (male)

Other languages (male)

Measure "Other languages (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c107_m'
    );
```

Measure "Other languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c107_m'
    );
```

Measure "Other languages (male)" percent of "Non-official languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_census.t004c107_m',
    'denominator'
  );
```

Measure "Other languages (male)" percent of "Non-official languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c107_m',
      'denominator'
    );
```

denominator: Non-official languages (male)

Selected Aboriginal languages (male)

Measure "Selected Aboriginal languages (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c007_m'
    );
```

Measure "Selected Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c007_m'
    );
```

Measure "Selected Aboriginal languages (male)" percent of "Non-official languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c007_m',
      'denominator'
    );
```

Measure "Selected Aboriginal languages (male)" percent of "Non-official languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c007_m',
      'denominator'
    );
```

denominator: Non-official languages (male)

Atikamekw (male)

Measure "Atikamekw (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c008_m'
    );
```

Measure "Atikamekw (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c008_m'
    );
```

Measure "Atikamekw (male)" percent of "Selected Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c008_m',
      'denominator'
    );
```

Measure "Atikamekw (male)" percent of "Selected Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c008_m',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (male)

Cree, n.o.s. (male)

Measure "Cree, n.o.s. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c009_m'
    );
```

Measure "Cree, n.o.s. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c009_m'
    );
```

Measure "Cree, n.o.s. (male)" percent of "Selected Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c009_m',
      'denominator'
    );
```

Measure "Cree, n.o.s. (male)" percent of "Selected Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c009_m',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (male)

Dene (male)

Measure "Dene (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c010_m'
    );
```

Measure "Dene (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c010_m'
    );
```

Measure "Dene (male)" percent of "Selected Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c010_m',
      'denominator'
    );
```

Measure "Dene (male)" percent of "Selected Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c010_m',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (male)

Innu/Montagnais (male)

Measure "Innu/Montagnais (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c011_m'
    );
```

Measure "Innu/Montagnais (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c011_m'
    );
```

Measure "Innu/Montagnais (male)" percent of "Selected Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c011_m',
      'denominator'
    );
```

Measure "Innu/Montagnais (male)" percent of "Selected Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c011_m',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (male)

Inuktitut (male)

Measure "Inuktitut (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c012_m'
    );
```

Measure "Inuktitut (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c012_m'
    );
```

Measure "Inuktitut (male)" percent of "Selected Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c012_m',
      'denominator'
    );
```

Measure "Inuktitut (male)" percent of "Selected Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c012_m',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (male)

Mi'kmaq (male)

Measure "Mi'kmaq (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c013_m'
    );
```

Measure "Mi'kmaq (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c013_m'
    );
```

Measure "Mi'kmaq (male)" percent of "Selected Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c013_m',
      'denominator'
    );
```

Measure "Mi'kmaq (male)" percent of "Selected Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c013_m',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (male)

Oji-Cree (male)

Measure "Oji-Cree (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c015_m'
    );
```

Measure "Oji-Cree (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c015_m'
    );
```

Measure "Oji-Cree (male)" percent of "Selected Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c015_m',
      'denominator'
    );
```

Measure "Oji-Cree (male)" percent of "Selected Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c015_m',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (male)

Ojibway (male)

Measure "Ojibway (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c014_m'
    );
```

Measure "Ojibway (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c014_m'
    );
```

Measure "Ojibway (male)" percent of "Selected Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c014_m',
      'denominator'
    );
```

Measure "Ojibway (male)" percent of "Selected Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c014_m',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (male)

Stoney (male)

Measure "Stoney (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c016_m'
    );
```

Measure "Stoney (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c016_m'
    );
```

Measure "Stoney (male)" percent of "Selected Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),

denominator: Selected non-Aboriginal languages (male)

Afrikaans (male)

Measure "Afrikaans (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c019_m'
    );
```

Measure "Afrikaans (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c019_m'
    );
```

Measure "Afrikaans (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c019_m',
      'denominator'
    );
```

Measure "Afrikaans (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c019_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Akan (Twi) (male)

Measure "Akan (Twi) (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c020_m'
    );
```

Measure "Akan (Twi) (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c020_m'
    );
```

Measure "Akan (Twi) (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c020_m',
      'denominator'
    );
```

Measure "Akan (Twi) (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c020_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Albanian (male)

Measure "Albanian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c021_m'
    );
```

Measure "Albanian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
```

```
    'ca.statcan.cols_census.t004c021_m'
  );
```

Measure "Albanian (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c021_m',
      'denominator'
    );
```

Measure "Albanian (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c021_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Amharic (male)

Measure "Amharic (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c022_m'
    );
```

Measure "Amharic (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c022_m'
    );
```

Measure "Amharic (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c022_m',
      'denominator'
    );
```

Measure "Amharic (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c022_m',
```

```
    'denominator'
  );
```

denominator: Selected non-Aboriginal languages (male)

Arabic (male)

Measure "Arabic (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c023_m'
    );
```

Measure "Arabic (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c023_m'
    );
```

Measure "Arabic (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c023_m',
      'denominator'
    );
```

Measure "Arabic (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c023_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Armenian (male)

Measure "Armenian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c024_m'
    );
```

Measure "Armenian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c024_m'
    );
```

Measure "Armenian (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c024_m',
      'denominator'
    );
```

Measure "Armenian (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c024_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Bantu languages, n.i.e. (male)

Measure "Bantu languages, n.i.e. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c025_m'
    );
```

Measure "Bantu languages, n.i.e. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c025_m'
    );
```

Measure "Bantu languages, n.i.e. (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c025_m',
      'denominator'
    );
```

Measure "Bantu languages, n.i.e. (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c025_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Bengali (male)

Measure "Bengali (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c026_m'
    );
```

Measure "Bengali (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c026_m'
    );
```

Measure "Bengali (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c026_m',
      'denominator'
    );
```

Measure "Bengali (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c026_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Berber languages (Kabyle) (male)

Measure "Berber languages (Kabyle) (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
```

```
    'ca.statcan.cols_census.t004c027_m'
  );
```

Measure "Berber languages (Kabyle) (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c027_m'
    );
```

Measure "Berber languages (Kabyle) (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c027_m',
      'denominator'
    );
```

Measure "Berber languages (Kabyle) (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c027_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Bisayan languages (male)

Measure "Bisayan languages (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c028_m'
    );
```

Measure "Bisayan languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c028_m'
    );
```

Measure "Bisayan languages (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_census.t004c028_m',
    'denominator'
  );
```

Measure "Bisayan languages (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c028_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Bosnian (male)

Measure "Bosnian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c029_m'
    );
```

Measure "Bosnian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c029_m'
    );
```

Measure "Bosnian (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c029_m',
      'denominator'
    );
```

Measure "Bosnian (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c029_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Bulgarian (male)

Measure "Bulgarian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c030_m'
    );
```

Measure "Bulgarian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c030_m'
    );
```

Measure "Bulgarian (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c030_m',
      'denominator'
    );
```

Measure "Bulgarian (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c030_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Burmese (male)

Measure "Burmese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c031_m'
    );
```

Measure "Burmese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c031_m'
    );
```

Measure "Burmese (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c031_m',
      'denominator'
    );
```

Measure "Burmese (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c031_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Cantonese (male)

Measure "Cantonese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c032_m'
    );
```

Measure "Cantonese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c032_m'
    );
```

Measure "Cantonese (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c032_m',
      'denominator'
    );
```

Measure "Cantonese (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c032_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Chinese, n.o.s. (male)

Measure "Chinese, n.o.s. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c033_m'
    );
```

Measure "Chinese, n.o.s. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c033_m'
    );
```

Measure "Chinese, n.o.s. (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c033_m',
      'denominator'
    );
```

Measure "Chinese, n.o.s. (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c033_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Creoles (male)

Measure "Creoles (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c034_m'
    );
```

Measure "Creoles (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c034_m'
    );
```

Measure "Creoles (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c034_m',
      'denominator'
    );
```

Measure "Creoles (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c034_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Croatian (male)

Measure "Croatian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c035_m'
    );
```

Measure "Croatian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c035_m'
    );
```

Measure "Croatian (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c035_m',
      'denominator'
    );
```

Measure "Croatian (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c035_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Czech (male)

Measure "Czech (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c036_m'
    );
```

Measure "Czech (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c036_m'
    );
```

Measure "Czech (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c036_m',
      'denominator'
    );
```

Measure "Czech (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c036_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Danish (male)

Measure "Danish (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c037_m'
    );
```

Measure "Danish (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c037_m'
    );
```

Measure "Danish (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c037_m',
      'denominator'
    );
```

Measure "Danish (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c037_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Dutch (male)

Measure "Dutch (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c038_m'
    );
```

Measure "Dutch (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c038_m'
    );
```

Measure "Dutch (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c038_m',
      'denominator'
    );
```

Measure "Dutch (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c038_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Estonian (male)

Measure "Estonian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c039_m'
    );
```

Measure "Estonian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c039_m'
    );
```

Measure "Estonian (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c039_m',
      'denominator'
    );
```

Measure "Estonian (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c039_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Finnish (male)

Measure "Finnish (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c040_m'
    );
```

Measure "Finnish (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c040_m'
    );
```

Measure "Finnish (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c040_m',
      'denominator'
    );
```

Measure "Finnish (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c040_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Flemish (male)

Measure "Flemish (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c041_m'
    );
```

Measure "Flemish (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c041_m'
    );
```

Measure "Flemish (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c041_m',
      'denominator'
    );
```

Measure "Flemish (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c041_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Fukien (male)

Measure "Fukien (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c042_m'
    );
```

Measure "Fukien (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c042_m'
    );
```

Measure "Fukien (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c042_m',
      'denominator'
    );
```

Measure "Fukien (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c042_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

German (male)

Measure "German (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c043_m'
    );
```

Measure "German (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c043_m'
    );
```

Measure "German (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c043_m',
      'denominator'
    );
```

Measure "German (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c043_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Greek (male)

Measure "Greek (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c044_m'
    );
```

Measure "Greek (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c044_m'
    );
```

Measure "Greek (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c044_m',
      'denominator'
    );
```

Measure "Greek (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c044_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Gujarati (male)

Measure "Gujarati (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c045_m'
    );
```

Measure "Gujarati (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c045_m'
    );
```

Measure "Gujarati (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c045_m',
      'denominator'
    );
```

Measure "Gujarati (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c045_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Hakka (male)

Measure "Hakka (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c046_m'
    );
```

Measure "Hakka (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c046_m'
    );
```

Measure "Hakka (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c046_m',
      'denominator'
    );
```

Measure "Hakka (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c046_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Hebrew (male)

Measure "Hebrew (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c047_m'
    );
```

Measure "Hebrew (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c047_m'
    );
```

Measure "Hebrew (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c047_m',
      'denominator'
    );
```

Measure "Hebrew (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c047_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Hindi (male)

Measure "Hindi (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c048_m'
    );
```

Measure "Hindi (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c048_m'
    );
```

Measure "Hindi (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c048_m',
      'denominator'
    );
```

Measure "Hindi (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c048_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Hungarian (male)

Measure "Hungarian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c049_m'
    );
```

Measure "Hungarian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c049_m'
    );
```

Measure "Hungarian (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c049_m',
      'denominator'
    );
```

Measure "Hungarian (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c049_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Ilocano (male)

Measure "Ilocano (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c050_m'
    );
```

Measure "Ilocano (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c050_m'
    );
```

Measure "Ilocano (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c050_m',
      'denominator'
    );
```

Measure "Ilocano (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c050_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Indo-Iranian languages, n.i.e. (male)

Measure "Indo-Iranian languages, n.i.e. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c051_m'
    );
```

Measure "Indo-Iranian languages, n.i.e. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c051_m'
    );
```

Measure "Indo-Iranian languages, n.i.e. (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c051_m',
      'denominator'
    );
```

Measure "Indo-Iranian languages, n.i.e. (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c051_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Italian (male)

Measure "Italian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c052_m'
    );
```

Measure "Italian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c052_m'
    );
```

Measure "Italian (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c052_m',
      'denominator'
    );
```

Measure "Italian (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c052_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Japanese (male)

Measure "Japanese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c053_m'
    );
```

Measure "Japanese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c053_m'
    );
```

Measure "Japanese (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c053_m',
      'denominator'
    );
```

Measure "Japanese (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c053_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Khmer (Cambodian) (male)

Measure "Khmer (Cambodian) (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c054_m'
    );
```

Measure "Khmer (Cambodian) (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c054_m'
    );
```

Measure "Khmer (Cambodian) (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c054_m',
      'denominator'
    );
```

Measure "Khmer (Cambodian) (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c054_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Korean (male)

Measure "Korean (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c055_m'
    );
```

Measure "Korean (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c055_m'
    );
```

Measure "Korean (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c055_m',
      'denominator'
    );
```

Measure "Korean (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c055_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Kurdish (male)

Measure "Kurdish (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c056_m'
    );
```

Measure "Kurdish (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c056_m'
    );
```

Measure "Kurdish (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c056_m',
      'denominator'
    );
```

Measure "Kurdish (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c056_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Lao (male)

Measure "Lao (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c057_m'
    );
```

Measure "Lao (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c057_m'
    );
```

Measure "Lao (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c057_m',
      'denominator'
    );
```

Measure "Lao (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c057_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Latvian (male)

Measure "Latvian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c058_m'
    );
```

Measure "Latvian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c058_m'
    );
```

Measure "Latvian (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c058_m',
      'denominator'
    );
```

Measure "Latvian (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c058_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Lingala (male)

Measure "Lingala (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c059_m'
    );
```

Measure "Lingala (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c059_m'
    );
```

Measure "Lingala (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c059_m',
      'denominator'
    );
```

Measure "Lingala (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c059_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Lithuanian (male)

Measure "Lithuanian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c060_m'
    );
```

Measure "Lithuanian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c060_m'
    );
```

Measure "Lithuanian (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c060_m',
      'denominator'
    );
```

Measure "Lithuanian (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c060_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Macedonian (male)

Measure "Macedonian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c061_m'
    );
```

Measure "Macedonian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c061_m'
    );
```

Measure "Macedonian (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c061_m',
      'denominator'
    );
```

Measure "Macedonian (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c061_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Malay (male)

Measure "Malay (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c062_m'
    );
```

Measure "Malay (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c062_m'
    );
```

Measure "Malay (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c062_m',
      'denominator'
    );
```

Measure "Malay (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c062_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Malayalam (male)

Measure "Malayalam (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c063_m'
    );
```

Measure "Malayalam (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c063_m'
    );
```

Measure "Malayalam (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c063_m',
      'denominator'
    );
```

Measure "Malayalam (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c063_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Maltese (male)

Measure "Maltese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c064_m'
    );
```

Measure "Maltese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c064_m'
    );
```

Measure "Maltese (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c064_m',
      'denominator'
    );
```

Measure "Maltese (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c064_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Mandarin (male)

Measure "Mandarin (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c065_m'
    );
```

Measure "Mandarin (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c065_m'
    );
```

Measure "Mandarin (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c065_m',
      'denominator'
    );
```

Measure "Mandarin (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c065_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Marathi (male)

Measure "Marathi (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c066_m'
    );
```

Measure "Marathi (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c066_m'
    );
```

Measure "Marathi (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c066_m',
      'denominator'
    );
```

Measure "Marathi (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c066_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Nepali (male)

Measure "Nepali (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c067_m'
    );
```

Measure "Nepali (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c067_m'
    );
```

Measure "Nepali (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c067_m',
      'denominator'
    );
```

Measure "Nepali (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c067_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Niger-Congo languages, n.i.e. (male)

Measure "Niger-Congo languages, n.i.e. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c068_m'
    );
```

Measure "Niger-Congo languages, n.i.e. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c068_m'
    );
```

Measure "Niger-Congo languages, n.i.e. (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c068_m',
      'denominator'
    );
```

Measure "Niger-Congo languages, n.i.e. (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c068_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Norwegian (male)

Measure "Norwegian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c069_m'
    );
```

Measure "Norwegian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c069_m'
    );
```

Measure "Norwegian (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c069_m',
      'denominator'
    );
```

Measure "Norwegian (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c069_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Oromo (male)

Measure "Oromo (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c070_m'
    );
```

Measure "Oromo (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
```

```
    'ca.statcan.cols_census.t004c070_m'
  );
```

Measure "Oromo (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c070_m',
      'denominator'
    );
```

Measure "Oromo (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c070_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Panjabi (Punjabi) (male)

Measure "Panjabi (Punjabi) (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c071_m'
    );
```

Measure "Panjabi (Punjabi) (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c071_m'
    );
```

Measure "Panjabi (Punjabi) (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c071_m',
      'denominator'
    );
```

Measure "Panjabi (Punjabi) (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
```

```
    'ca.statcan.cols_census.t004c071_m',
    'denominator'
  );
```

denominator: Selected non-Aboriginal languages (male)

Pashto (male)

Measure "Pashto (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c072_m'
    );
```

Measure "Pashto (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c072_m'
    );
```

Measure "Pashto (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c072_m',
      'denominator'
    );
```

Measure "Pashto (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c072_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Persian (Farsi) (male)

Measure "Persian (Farsi) (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c073_m'
    );
```

Measure "Persian (Farsi) (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c073_m'
    );
```

Measure "Persian (Farsi) (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c073_m',
      'denominator'
    );
```

Measure "Persian (Farsi) (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c073_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Polish (male)

Measure "Polish (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c074_m'
    );
```

Measure "Polish (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c074_m'
    );
```

Measure "Polish (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c074_m',
      'denominator'
    );
```

Measure "Polish (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
    'ca.statcan.cols_census.t004c074_m',
    'denominator'
  );
```

denominator: Selected non-Aboriginal languages (male)

Portuguese (male)

Measure "Portuguese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c075_m'
    );
```

Measure "Portuguese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c075_m'
    );
```

Measure "Portuguese (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c075_m',
      'denominator'
    );
```

Measure "Portuguese (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c075_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Romanian (male)

Measure "Romanian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c076_m'
    );
```

Measure "Romanian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c076_m'
    );
```

Measure "Romanian (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c076_m',
      'denominator'
    );
```

Measure "Romanian (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c076_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Rundi (Kirundi) (male)

Measure "Rundi (Kirundi) (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c077_m'
    );
```

Measure "Rundi (Kirundi) (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c077_m'
    );
```

Measure "Rundi (Kirundi) (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c077_m',
      'denominator'
    );
```

Measure "Rundi (Kirundi) (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c077_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Russian (male)

Measure "Russian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c078_m'
    );
```

Measure "Russian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c078_m'
    );
```

Measure "Russian (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c078_m',
      'denominator'
    );
```

Measure "Russian (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c078_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Rwanda (Kinyarwanda) (male)

Measure "Rwanda (Kinyarwanda) (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
```

```
    'ca.statcan.cols_census.t004c079_m'
  );
```

Measure "Rwanda (Kinyarwanda) (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c079_m'
    );
```

Measure "Rwanda (Kinyarwanda) (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c079_m',
      'denominator'
    );
```

Measure "Rwanda (Kinyarwanda) (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c079_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Semitic languages, n.i.e. (male)

Measure "Semitic languages, n.i.e. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c080_m'
    );
```

Measure "Semitic languages, n.i.e. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c080_m'
    );
```

Measure "Semitic languages, n.i.e. (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_census.t004c080_m',
    'denominator'
  );
```

Measure "Semitic languages, n.i.e. (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c080_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Serbian (male)

Measure "Serbian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c081_m'
    );
```

Measure "Serbian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c081_m'
    );
```

Measure "Serbian (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c081_m',
      'denominator'
    );
```

Measure "Serbian (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c081_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Serbo-Croatian (male)

Measure "Serbo-Croatian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c082_m'
    );
```

Measure "Serbo-Croatian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c082_m'
    );
```

Measure "Serbo-Croatian (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c082_m',
      'denominator'
    );
```

Measure "Serbo-Croatian (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c082_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Shanghainese (male)

Measure "Shanghainese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c083_m'
    );
```

Measure "Shanghainese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c083_m'
    );
```

Measure "Shanghainese (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c083_m',
      'denominator'
    );
```

Measure "Shanghainese (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c083_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Sign languages, n.i.e. (male)

Measure "Sign languages, n.i.e. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c084_m'
    );
```

Measure "Sign languages, n.i.e. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c084_m'
    );
```

Measure "Sign languages, n.i.e. (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c084_m',
      'denominator'
    );
```

Measure "Sign languages, n.i.e. (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c084_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Sindhi (male)

Measure "Sindhi (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c085_m'
    );
```

Measure "Sindhi (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c085_m'
    );
```

Measure "Sindhi (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c085_m',
      'denominator'
    );
```

Measure "Sindhi (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c085_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Sinhala (Sinhalese) (male)

Measure "Sinhala (Sinhalese) (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c086_m'
    );
```

Measure "Sinhala (Sinhalese) (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
```

```
    'ca.statcan.cols_census.t004c086_m'
  );
```

Measure "Sinhala (Sinhalese) (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c086_m',
      'denominator'
    );
```

Measure "Sinhala (Sinhalese) (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c086_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Sino-Tibetan languages, n.i.e. (male)

Measure "Sino-Tibetan languages, n.i.e. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c087_m'
    );
```

Measure "Sino-Tibetan languages, n.i.e. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c087_m'
    );
```

Measure "Sino-Tibetan languages, n.i.e. (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c087_m',
      'denominator'
    );
```

Measure "Sino-Tibetan languages, n.i.e. (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c087_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Slavic languages, n.i.e. (male)

Measure "Slavic languages, n.i.e. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c088_m'
    );
```

Measure "Slavic languages, n.i.e. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c088_m'
    );
```

Measure "Slavic languages, n.i.e. (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c088_m',
      'denominator'
    );
```

Measure "Slavic languages, n.i.e. (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c088_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Slovak (male)

Measure "Slovak (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_census.t004c089_m'
  );
```

Measure "Slovak (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c089_m'
    );
```

Measure "Slovak (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c089_m',
      'denominator'
    );
```

Measure "Slovak (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(

      'denominator'
    );
```

Measure "Tagalog (Pilipino, Filipino) (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c095_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Taiwanese (male)

Measure "Taiwanese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c096_m'
    );
```

Measure "Taiwanese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c096_m'
    );
```

Measure "Taiwanese (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c096_m',
      'denominator'
    );
```

Measure "Taiwanese (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c096_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Tamil (male)

Measure "Tamil (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c097_m'
    );
```

Measure "Tamil (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c097_m'
    );
```

Measure "Tamil (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c097_m',
      'denominator'
    );
```

Measure "Tamil (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c097_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Telugu (male)

Measure "Telugu (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c098_m'
    );
```

Measure "Telugu (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c098_m'
    );
```

Measure "Telugu (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c098_m',
      'denominator'
    );
```

Measure "Telugu (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c098_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Thai (male)

Measure "Thai (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c099_m'
    );
```

Measure "Thai (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c099_m'
    );
```

Measure "Thai (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c099_m',
      'denominator'
    );
```

Measure "Thai (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c099_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Tibetan languages (male)

Measure "Tibetan languages (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c100_m'
    );
```

Measure "Tibetan languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c100_m'
    );
```

Measure "Tibetan languages (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c100_m',
      'denominator'
    );
```

Measure "Tibetan languages (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c100_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Tigrigna (male)

Measure "Tigrigna (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c101_m'
    );
```

Measure "Tigrigna (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c101_m'
    );
```

Measure "Tigrigna (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c101_m',
      'denominator'
    );
```

Measure "Tigrigna (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c101_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Turkish (male)

Measure "Turkish (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c102_m'
    );
```

Measure "Turkish (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
```

```
    'ca.statcan.cols_census.t004c102_m'
  );
```

Measure "Turkish (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```

      'denominator'
    );
```

Measure "Urdu (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c104_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Vietnamese (male)

Measure "Vietnamese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c105_m'
    );
```

Measure "Vietnamese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c105_m'
    );
```

Measure "Vietnamese (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c105_m',
      'denominator'
    );
```

Measure "Vietnamese (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c105_m',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (male)

Yiddish (male)

Measure "Yiddish (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c106_m'
    );
```

Measure "Yiddish (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c106_m'
    );
```

Measure "Yiddish (male)" percent of "Selected non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c106_m',
      'denominator'
    );
```

Measure "Yiddish (male)" percent of "Selected non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
    'ca.statcan.cols_census.t004c106_m',
    'denominator'
  );
```

denominator: Selected non-Aboriginal languages (male)

Other language spoken regularly at home - Single responses (total)

Measure "Other language spoken regularly at home - Single responses (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c003_t'
    );
```

Measure "Other language spoken regularly at home - Single responses (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c003_t'
    );
```

Measure "Other language spoken regularly at home - Single responses (total)" percent of "Total population excluding institutional residents (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c003_t',
      'denominator'
    );
```

Measure "Other language spoken regularly at home - Single responses (total)" percent of "Total population excluding institutional residents (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c003_t',
      'denominator'
    );
```

denominator: Total population excluding institutional residents (total)

English (total) 1280

French (total) 1280

Non-official languages (total) 1281

English (total)

Measure "English (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c004_t'
    );
```

Measure "English (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c004_t'
    );
```

Measure "English (total)" percent of "Other language spoken regularly at home - Single responses (total)" at one point:

```

Yiddish (total) 1352

Other languages (total)

Measure "Other languages (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
```

```
    'ca.statcan.cols_census.t004c107_t'
  );
```

Measure "Other languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c107_t'
    );
```

Measure "Other languages (total)" percent of "Non-official languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c107_t',
      'denominator'
    );
```

Measure "Other languages (total)" percent of "Non-official languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c107_t',
      'denominator'
    );
```

denominator: Non-official languages (total)

Selected Aboriginal languages (total)

Measure "Selected Aboriginal languages (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c007_t'
    );
```

Measure "Selected Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c007_t'
    );
```

Measure "Selected Aboriginal languages (total)" percent of "Non-official languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c007_t',
      'denominator'
    );
```

Measure "Selected Aboriginal languages (total)" percent of "Non-official languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c007_t',
      'denominator'
    );
```

denominator: Non-official languages (total)

Atikamekw (total)

Measure "Atikamekw (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c008_t'
    );
```

Measure "Atikamekw (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c008_t'
    );
```

Measure "Atikamekw (total)" percent of "Selected Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c008_t',
      'denominator'
    );
```

Measure "Atikamekw (total)" percent of "Selected Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c008_t',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (total)

Cree, n.o.s. (total)

Measure "Cree, n.o.s. (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c009_t'
    );
```

Measure "Cree, n.o.s. (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c009_t'
    );
```

Measure "Cree, n.o.s. (total)" percent of "Selected Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c009_t',
      'denominator'
    );
```

Measure "Cree, n.o.s. (total)" percent of "Selected Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c009_t',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (total)

Dene (total)

Measure "Dene (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c010_t'
    );
```

Measure "Dene (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c010_t'
    );
```

Measure "Dene (total)" percent of "Selected Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
```

```
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_census.t004c010_t',
    'denominator'
  );
```

Measure "Dene (total)" percent of "Selected Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c010_t',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (total)

Innu/Montagnais (total)

Measure "Innu/Montagnais (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c011_t'
    );
```

Measure "Innu/Montagnais (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c011_t'
    );
```

Measure "Innu/Montagnais (total)" percent of "Selected Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c011_t',
      'denominator'
    );
```

Measure "Innu/Montagnais (total)" percent of "Selected Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c011_t',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (total)

Inuktitut (total)

Measure "Inuktitut (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c012_t'
    );
```

Measure "Inuktitut (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c012_t'
    );
```

Measure "Inuktitut (total)" percent of "Selected Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c012_t',
      'denominator'
    );
```

Measure "Inuktitut (total)" percent of "Selected Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c012_t',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (total)

Mi'kmaq (total)

Measure "Mi'kmaq (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c013_t'
    );
```

Measure "Mi'kmaq (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c013_t'
    );
```

Measure "Mi'kmaq (total)" percent of "Selected Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c013_t',
      'denominator'
    );
```

Measure "Mi'kmaq (total)" percent of "Selected Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c013_t',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (total)

Oji-Cree (total)

Measure "Oji-Cree (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c015_t'
    );
```

Measure "Oji-Cree (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c015_t'
    );
```

Measure "Oji-Cree (total)" percent of "Selected Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c015_t',
      'denominator'
    );
```

Measure "Oji-Cree (total)" percent of "Selected Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c015_t',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (total)

Ojibway (total)

Measure "Ojibway (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c014_t'
    );
```

Measure "Ojibway (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c014_t'
    );
```

Measure "Ojibway (total)" percent of "Selected Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c014_t',
      'denominator'
    );
```

Measure "Ojibway (total)" percent of "Selected Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c014_t',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (total)

Stoney (total)

Measure "Stoney (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c016_t'
    );
```

Measure "Stoney (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c016_t'
    );
```

Measure "Stoney (total)" percent of "Selected Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c016_t',
      'denominator'
    );
```

Measure "Stoney (total)" percent of "Selected Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c016_t',
      'denominator'
    );
```

denominator: Selected Aboriginal languages (total)

Selected non-Aboriginal languages (total)

Measure "Selected non-Aboriginal languages (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c017_t'
    );
```

Measure "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c017_t'
    );
```

Measure "Selected non-Aboriginal languages (total)" percent of "Non-official languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c017_t',
      'denominator'
    );
```

Measure "Selected non-Aboriginal languages (total)" percent of "Non-official languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c017_t',
      'denominator'
    );
```

denominator: Non-official languages (total)

African languages, n.i.e. (total)

Measure "African languages, n.i.e. (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c018_t'
    );
```

Measure "African languages, n.i.e. (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c018_t'
    );
```

Measure "African languages, n.i.e. (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c018_t',
      'denominator'
    );
```

Measure "African languages, n.i.e. (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c018_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Afrikaans (total)

Measure "Afrikaans (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c019_t'
    );
```

Measure "Afrikaans (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c019_t'
    );
```

Measure "Afrikaans (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c019_t',
      'denominator'
    );
```

Measure "Afrikaans (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c019_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Akan (Twi) (total)

Measure "Akan (Twi) (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c020_t'
    );
```

Measure "Akan (Twi) (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c020_t'
    );
```

Measure "Akan (Twi) (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c020_t',
      'denominator'
    );
```

Measure "Akan (Twi) (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
    'ca.statcan.cols_census.t004c020_t',
    'denominator'
  );
```

denominator: Selected non-Aboriginal languages (total)

Albanian (total)

Measure "Albanian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c021_t'
    );
```

Measure "Albanian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c021_t'
    );
```

Measure "Albanian (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c021_t',
      'denominator'
    );
```

Measure "Albanian (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c021_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Amharic (total)

Measure "Amharic (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c022_t'
    );
```

Measure "Amharic (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c022_t'
    );
```

Measure "Amharic (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c022_t',
      'denominator'
    );
```

Measure "Amharic (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c022_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Arabic (total)

Measure "Arabic (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c023_t'
    );
```

Measure "Arabic (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c023_t'
    );
```

Measure "Arabic (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c023_t',
      'denominator'
    );
```

Measure "Arabic (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c023_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Armenian (total)

Measure "Armenian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c024_t'
    );
```

Measure "Armenian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c024_t'
    );
```

Measure "Armenian (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c024_t',
      'denominator'
    );
```

Measure "Armenian (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c024_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Bantu languages, n.i.e. (total)

Measure "Bantu languages, n.i.e. (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
```

```
    'ca.statcan.cols_census.t004c025_t'
  );
```

Measure "Bantu languages, n.i.e. (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c025_t'
    );
```

Measure "Bantu languages, n.i.e. (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c025_t',
      'denominator'
    );
```

Measure "Bantu languages, n.i.e. (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),

      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Bengali (total)

Measure "Bengali (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c026_t'
    );
```

Measure "Bengali (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c026_t'
    );
```

Measure "Bengali (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
```

```
    'ca.statcan.cols_census.t004c026_t',
    'denominator'
  );
```

Measure "Bengali (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c026_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Berber languages (Kabyle) (total)

Measure "Berber languages (Kabyle) (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c027_t'
    );
```

Measure "Berber languages (Kabyle) (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c027_t'
    );
```

Measure "Berber languages (Kabyle) (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c027_t',
      'denominator'
    );
```

Measure "Berber languages (Kabyle) (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c027_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Bisayan languages (total)

Measure "Bisayan languages (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c028_t'
    );
```

Measure "Bisayan languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c028_t'
    );
```

Measure "Bisayan languages (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c028_t',
      'denominator'
    );
```

Measure "Bisayan languages (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c028_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Bosnian (total)

Measure "Bosnian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c029_t'
    );
```

Measure "Bosnian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c029_t'
    );
```

Measure "Bosnian (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c029_t',
      'denominator'
    );
```

Measure "Bosnian (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c029_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Bulgarian (total)

Measure "Bulgarian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c030_t'
    );
```

Measure "Bulgarian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c030_t'
    );
```

Measure "Bulgarian (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c030_t',
      'denominator'
    );
```

Measure "Bulgarian (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c030_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Burmese (total)

Measure "Burmese (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c031_t'
    );
```

Measure "Burmese (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c031_t'
    );
```

Measure "Burmese (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =

      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c031_t',
      'denominator'
    );
```

Measure "Burmese (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c031_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Cantonese (total)

Measure "Cantonese (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c032_t'
    );
```

Measure "Cantonese (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c032_t'
    );
```

Measure "Cantonese (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c032_t',
      'denominator'
    );
```

Measure "Cantonese (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c032_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Chinese, n.o.s. (total)

Measure "Chinese, n.o.s. (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c033_t'
    );
```

Measure "Chinese, n.o.s. (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c033_t'
    );
```

Measure "Chinese, n.o.s. (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c033_t',
      'denominator'
    );
```

Measure "Chinese, n.o.s. (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c033_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Creoles (total)

Measure "Creoles (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c034_t'
    );
```

Measure "Creoles (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c034_t'
    );
```

Measure "Creoles (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c034_t',
      'denominator'
    );
```

Measure "Creoles (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c034_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Croatian (total)

Measure "Croatian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c035_t'
    );
```

Measure "Croatian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c035_t'
    );
```

Measure "Croatian (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =

      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c035_t',
      'denominator'
    );
```

Measure "Croatian (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c035_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Czech (total)

Measure "Czech (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c036_t'
    );
```

Measure "Czech (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c036_t'
    );
```

Measure "Czech (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c036_t',
      'denominator'
    );
```

Measure "Czech (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c036_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Danish (total)

Measure "Danish (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c037_t'
    );
```

Measure "Danish (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c037_t'
    );
```

Measure "Danish (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =

    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c042_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

German (total)

Measure "German (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c043_t'
    );
```

Measure "German (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c043_t'
    );
```

Measure "German (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c043_t',
      'denominator'
    );
```

Measure "German (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c043_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Greek (total)

Measure "Greek (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c044_t'
    );
```

Measure "Greek (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c044_t'
    );
```

Measure "Greek (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}

      'denominator'
    );
```

Measure "Hungarian (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c049_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Ilocano (total)

Measure "Ilocano (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c050_t'
    );
```

Measure "Ilocano (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c050_t'
    );
```

Measure "Ilocano (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c050_t',
      'denominator'
    );
```

Measure "Ilocano (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c050_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Indo-Iranian languages, n.i.e. (total)

Measure "Indo-Iranian languages, n.i.e. (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c051_t'
    );
```

Measure "Indo-Iranian languages, n.i.e. (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c051_t'
    );
```

Measure "Indo-Iranian languages, n.i.e. (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(

    );
```

Measure "Japanese (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
```

```
    'ca.statcan.cols_census.t004c053_t'
  );
```

Measure "Japanese (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c053_t',
      'denominator'
    );
```

Measure "Japanese (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c053_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Khmer (Cambodian) (total)

Measure "Khmer (Cambodian) (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c054_t'
    );
```

Measure "Khmer (Cambodian) (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c054_t'
    );
```

Measure "Khmer (Cambodian) (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c054_t',
      'denominator'
    );
```

Measure "Khmer (Cambodian) (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
```

```
    ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
    'ca.statcan.cols_census.t004c054_t',
    'denominator'
  );
```

denominator: Selected non-Aboriginal languages (total)

Korean (total)

Measure "Korean (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c055_t'
    );
```

Measure "Korean (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c055_t'
    );
```

Measure "Korean (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c055_t',
      'denominator'
    );
```

Measure "Korean (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),

      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Kurdish (total)

Measure "Kurdish (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c056_t'
    );
```

Measure "Kurdish (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c056_t'
    );
```

Measure "Kurdish (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c056_t',
      'denominator'
    );
```

Measure "Kurdish (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c056_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Lao (total)

Measure "Lao (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c057_t'
    );
```

Measure "Lao (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c057_t'
    );
```

Measure "Lao (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c057_t',
      'denominator'
    );
```

Measure "Lao (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
    'ca.statcan.cols_census.t004c057_t',
    'denominator'
  );
```

denominator: Selected non-Aboriginal languages (total)

Latvian (total)

Measure "Latvian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c058_t'
    );
```

Measure "Latvian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c058_t'
    );
```

Measure "Latvian (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c058_t',
      'denominator'
    );
```

Measure "Latvian (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c058_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Lingala (total)

Measure "Lingala (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c059_t'
    );
```

Measure "Lingala (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c059_t'
    );
```

Measure "Lingala (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c059_t',
      'denominator'
    );
```

Measure "Lingala (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c059_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Lithuanian (total)

Measure "Lithuanian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c060_t'
    );
```

Measure "Lithuanian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c060_t'
    );
```

Measure "Lithuanian (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c060_t',
      'denominator'
    );
```

Measure "Lithuanian (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c060_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Macedonian (total)

Measure "Macedonian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c061_t'
    );
```

Measure "Macedonian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c061_t'
    );
```

Measure "Macedonian (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =

    );
```

Measure "Norwegian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c069_t'
    );
```

Measure "Norwegian (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c069_t',
      'denominator'
    );
```

Measure "Norwegian (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c069_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Oromo (total)

Measure "Oromo (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c070_t'
    );
```

Measure "Oromo (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c070_t'
    );
```

Measure "Oromo (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c070_t',
      'denominator'
    );
```

Measure "Oromo (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c070_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Panjabi (Punjabi) (total)

Measure "Panjabi (Punjabi) (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c071_t'
    );
```

Measure "Panjabi (Punjabi) (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c071_t'
    );
```

Measure "Panjabi (Punjabi) (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c071_t',
      'denominator'
    );
```

Measure "Panjabi (Punjabi) (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c071_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Pashto (total)

Measure "Pashto (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c072_t'
    );
```

Measure "Pashto (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c072_t'
    );
```

Measure "Pashto (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c072_t',
      'denominator'
    );
```

Measure "Pashto (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c072_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Persian (Farsi) (total)

Measure "Persian (Farsi) (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c073_t'
    );
```

Measure "Persian (Farsi) (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c073_t'
    );
```

Measure "Persian (Farsi) (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c073_t',
      'denominator'
    );
```

Measure "Persian (Farsi) (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c073_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Polish (total)

Measure "Polish (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c074_t'
    );
```

Measure "Polish (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c074_t'
    );
```

Measure "Polish (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c074_t',
      'denominator'
    );
```

Measure "Polish (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c074_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Portuguese (total)

Measure "Portuguese (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c075_t'
    );
```

Measure "Portuguese (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c075_t'
    );
```

Measure "Portuguese (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c075_t',
      'denominator'
    );
```

Measure "Portuguese (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c075_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Romanian (total)

Measure "Romanian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c076_t'
    );
```

Measure "Romanian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c076_t'
    );
```

Measure "Romanian (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c076_t',
      'denominator'
    );
```

Measure "Romanian (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c076_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Rundi (Kirundi) (total)

Measure "Rundi (Kirundi) (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c077_t'
    );
```

Measure "Rundi (Kirundi) (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c077_t'
    );
```

Measure "Rundi (Kirundi) (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c077_t',
      'denominator'
    );
```

Measure "Rundi (Kirundi) (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c077_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Russian (total)

Measure "Russian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c078_t'
    );
```

Measure "Russian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c078_t'
    );
```

Measure "Russian (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c078_t',
      'denominator'
    );
```

Measure "Russian (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c078_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Rwanda (Kinyarwanda) (total)

Measure "Rwanda (Kinyarwanda) (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c079_t'
    );
```

Measure "Rwanda (Kinyarwanda) (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c079_t'
    );
```

Measure "Rwanda (Kinyarwanda) (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c079_t',
      'denominator'
    );
```

Measure "Rwanda (Kinyarwanda) (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c079_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Semitic languages, n.i.e. (total)

Measure "Semitic languages, n.i.e. (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c080_t'
    );
```

Measure "Semitic languages, n.i.e. (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c080_t'
    );
```

Measure "Semitic languages, n.i.e. (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =

      'ca.statcan.cols_census.t004c080_t',
      'denominator'
    );
```

Measure "Semitic languages, n.i.e. (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c080_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Serbian (total)

Measure "Serbian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c081_t'
    );
```

Measure "Serbian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c081_t'
    );
```

Measure "Serbian (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c081_t',
      'denominator'
    );
```

Measure "Serbian (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c081_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Serbo-Croatian (total)

Measure "Serbo-Croatian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c082_t'
    );
```

Measure "Serbo-Croatian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c082_t'
    );
```

Measure "Serbo-Croatian (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c082_t',
      'denominator'
    );
```

Measure "Serbo-Croatian (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
    'ca.statcan.cols_census.t004c082_t',
    'denominator'
  );
```

denominator: Selected non-Aboriginal languages (total)

Shanghainese (total)

Measure "Shanghainese (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c083_t'
    );
```

Measure "Shanghainese (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c083_t'
    );
```

Measure "Shanghainese (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c083_t',
      'denominator'
    );
```

Measure "Shanghainese (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c083_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Sign languages, n.i.e. (total)

Measure "Sign languages, n.i.e. (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c084_t'
    );
```

Measure "Sign languages, n.i.e. (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c084_t'
    );
```

Measure "Sign languages, n.i.e. (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c084_t',
      'denominator'
    );
```

Measure "Sign languages, n.i.e. (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c084_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Sindhi (total)

Measure "Sindhi (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c085_t'
    );
```

Measure "Sindhi (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c085_t'
    );
```

Measure "Sindhi (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c085_t',
      'denominator'
    );
```

Measure "Sindhi (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c085_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Sinhala (Sinhalese) (total)

Measure "Sinhala (Sinhalese) (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c086_t'
    );
```

Measure "Sinhala (Sinhalese) (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c086_t'
    );
```

Measure "Sinhala (Sinhalese) (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c086_t',
      'denominator'
    );
```

Measure "Sinhala (Sinhalese) (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c086_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Sino-Tibetan languages, n.i.e. (total)

Measure "Sino-Tibetan languages, n.i.e. (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c087_t'
    );
```

Measure "Sino-Tibetan languages, n.i.e. (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c087_t'
    );
```

Measure "Sino-Tibetan languages, n.i.e. (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c087_t',
      'denominator'
    );
```

Measure "Sino-Tibetan languages, n.i.e. (total)" percent of "Selected non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c087_t',
      'denominator'
    );
```

denominator: Selected non-Aboriginal languages (total)

Slavic languages, n.i.e. (total)

Measure "Slavic languages, n.i.e. (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_census.t004c088_t'
    );
```

Measure "Slavic languages, n.i.e. (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_census.t004c088_t'
    );
```

Measure "Slavic languages, n.i.e. (total)" percent of "Selected non-Aboriginal languages (total)" at one point:

      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c020_f',
      'denominator'
    );
```

denominator: People who speak - Non-Aboriginal languages (female)

Romanian (female)

Measure "Romanian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c021_f'
    );
```

Measure "Romanian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c021_f'
    );
```

Measure "Romanian (female)" percent of "People who speak - Non-Aboriginal languages (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c021_f',
      'denominator'
    );
```

Measure "Romanian (female)" percent of "People who speak - Non-Aboriginal languages (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c021_f',
      'denominator'
    );
```

denominator: People who speak - Non-Aboriginal languages (female)

Semitic languages, n.i.e. (female)

Measure "Semitic languages, n.i.e. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c061_f'
    );
```

Measure "Semitic languages, n.i.e. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),

      'denominator'
    );
```

Measure "Bantu languages, n.i.e. (male)" percent of "People who speak - Non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c101_m',
      'denominator'
    );
```

denominator: People who speak - Non-Aboriginal languages (male)

Finnish (male)

Measure "Finnish (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c050_m'
    );
```

Measure "Finnish (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c050_m'
    );
```

Measure "Finnish (male)" percent of "People who speak - Non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c050_m',
      'denominator'
    );
```

Measure "Finnish (male)" percent of "People who speak - Non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c050_m',
      'denominator'
    );
```

denominator: People who speak - Non-Aboriginal languages (male)

Gaelic languages (male)

Measure "Gaelic languages (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c031_m'
    );
```

Measure "Gaelic languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c031_m'
    );
```

Measure "Gaelic languages (male)" percent of "People who speak - Non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c031_m',
      'denominator'
    );
```

Measure "Gaelic languages (male)" percent of "People who speak - Non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),

      'denominator'
    );
```

denominator: People who speak - Non-Aboriginal languages (male)

Hungarian (male)

Measure "Hungarian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c051_m'
    );
```

Measure "Hungarian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c051_m'
    );
```

Measure "Hungarian (male)" percent of "People who speak - Non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c051_m',
      'denominator'
    );
```

Measure "Hungarian (male)" percent of "People who speak - Non-Aboriginal languages (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c051_m',
      'denominator'
    );
```

denominator: People who speak - Non-Aboriginal languages (male)

Japanese (male)

Measure "Japanese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c080_m'
    );
```

Measure "Japanese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c080_m'
    );
```

Measure "Japanese (male)" percent of "People who speak - Non-Aboriginal languages (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =

People who speak - Telugu (total) 1575
People who speak - Thai (total) 1576
People who speak - Turkish (total) 1576
People who speak - Ukrainian (total) 1577
People who speak - Yiddish (total) 1578
Portuguese (total) 1579
Romanian (total) 1579
Semitic languages, n.i.e. (total) 1580
Serbo-Croatian (total) 1581
Slovak (total) 1581
Swahili (total) 1582
Tigrigna (total) 1583
Urdu (total) 1584
Vietnamese (total) 1584

Afrikaans (total)

Measure "Afrikaans (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c030_t'
    );
```

Measure "Afrikaans (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c030_t'
    );
```

Measure "Afrikaans (total)" percent of "People who speak - Non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c030_t',
      'denominator'
    );
```

Measure "Afrikaans (total)" percent of "People who speak - Non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
```

```
    'ca.statcan.cols_nhs.t020c030_t',
    'denominator'
  );
```

denominator: People who speak - Non-Aboriginal languages (total)

Bantu languages, n.i.e. (total)

Measure "Bantu languages, n.i.e. (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c101_t'
    );
```

Measure "Bantu languages, n.i.e. (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c101_t'
    );
```

Measure "Bantu languages, n.i.e. (total)" percent of "People who speak - Non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c101_t',
      'denominator'
    );
```

Measure "Bantu languages, n.i.e. (total)" percent of "People who speak - Non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c101_t',
      'denominator'
    );
```

denominator: People who speak - Non-Aboriginal languages (total)

Finnish (total)

Measure "Finnish (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c050_t'
    );
```

Measure "Finnish (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c050_t'
    );
```

Measure "Finnish (total)" percent of "People who speak - Non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c050_t',
      'denominator'
    );
```

Measure "Finnish (total)" percent of "People who speak - Non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c050_t',
      'denominator'
    );
```

denominator: People who speak - Non-Aboriginal languages (total)

Gaelic languages (total)

Measure "Gaelic languages (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c031_t'
    );
```

Measure "Gaelic languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c031_t'
    );
```

Measure "Gaelic languages (total)" percent of "People who speak - Non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c031_t',
      'denominator'
    );
```

Measure "Gaelic languages (total)" percent of "People who speak - Non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c031_t',
      'denominator'
    );
```

denominator: People who speak - Non-Aboriginal languages (total)

Hungarian (total)

Measure "Hungarian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c051_t'
    );
```

Measure "Hungarian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c051_t'
    );
```

Measure "Hungarian (total)" percent of "People who speak - Non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c051_t',
      'denominator'
    );
```

Measure "Hungarian (total)" percent of "People who speak - Non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c051_t',
      'denominator'
    );
```

denominator: People who speak - Non-Aboriginal languages (total)

Japanese (total)

Measure "Japanese (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c080_t'
    );
```

Measure "Japanese (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c080_t'
    );
```

Measure "Japanese (total)" percent of "People who speak - Non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c080_t',
      'denominator'
    );
```

Measure "Japanese (total)" percent of "People who speak - Non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c080_t',
      'denominator'
    );
```

denominator: People who speak - Non-Aboriginal languages (total)

Khmer (Cambodian) (total)

Measure "Khmer (Cambodian) (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c090_t'
    );
```

Measure "Khmer (Cambodian) (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c090_t'
    );
```

Measure "Khmer (Cambodian) (total)" percent of "People who speak - Non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c090_t',
      'denominator'
    );
```

Measure "Khmer (Cambodian) (total)" percent of "People who speak - Non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c090_t',
      'denominator'
    );
```

denominator: People who speak - Non-Aboriginal languages (total)

Korean (total)

Measure "Korean (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c081_t'
    );
```

Measure "Korean (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c081_t'
    );
```

Measure "Korean (total)" percent of "People who speak - Non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =

Measure "People who speak - Thai (total)" percent of "People who speak - Non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c089_t',
      'denominator'
    );
```

denominator: People who speak - Non-Aboriginal languages (total)

People who speak - Turkish (total)

Measure "People who speak - Turkish (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c052_t'
    );
```

Measure "People who speak - Turkish (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c052_t'
    );
```

Measure "People who speak - Turkish (total)" percent of "People who speak - Non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c052_t',
      'denominator'
    );
```

Measure "People who speak - Turkish (total)" percent of "People who speak - Non-Aboriginal languages (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c052_t',
      'denominator'
    );
```

denominator: People who speak - Non-Aboriginal languages (total)

People who speak - Ukrainian (total)

Measure "People who speak - Ukrainian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t020c043_t'
    );
```

Measure "People who speak - Ukrainian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t020c043_t'
    );
```

Measure "People who speak - Ukrainian (total)" percent of "People who speak - Non-Aboriginal languages (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(

Internal migrants who moved in the last 5 years (female) 1611

Interprovincial migrants who moved in the last 5 years (female) 1611

Intraprovincial migrants who moved in the last 5 years (female) 1612

Non-migrants who moved in the last 5 years (female) 1613

Migrants who moved in the last 5 years (female)

Measure "Migrants who moved in the last 5 years (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t018c014_f'
    );
```

Measure "Migrants who moved in the last 5 years (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t018c014_f'
    );
```

Measure "Migrants who moved in the last 5 years (female)" percent of "People who moved in the last 5 years (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t018c014_f',
      'denominator'
    );
```

Measure "Migrants who moved in the last 5 years (female)" percent of "People who moved in the last 5 years (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t018c014_f',
      'denominator'
    );
```

denominator: People who moved in the last 5 years (female)

External migrants who moved in the last 5 years (female)

Measure "External migrants who moved in the last 5 years (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t018c018_f'
    );
```

Measure "External migrants who moved in the last 5 years (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t018c018_f'
    );
```

Measure "External migrants who moved in the last 5 years (female)" percent of "Migrants who moved in the last 5 years (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t018c018_f',
      'denominator'
    );
```

Measure "External migrants who moved in the last 5 years (female)" percent of "Migrants who moved in the last 5 years (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
```

```
    ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),

African origins (female)

Measure "African origins (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c131_f'
    );
```

Measure "African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c131_f'
    );
```

Measure "African origins (female)" percent of "Total number of persons in private households (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c131_f',
      'denominator'
    );
```

Measure "African origins (female)" percent of "Total number of persons in private households (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c131_f',
      'denominator'
    );
```

denominator: Total number of persons in private households (female)

Central and West African origins (female) 1974

North African origins (female) 1991

Other African origins (female) 1999

Southern and East African origins (female) 2001

Central and West African origins (female)

Measure "Central and West African origins (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c132_f'
    );
```

Measure "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c132_f'
    );
```

Measure "Central and West African origins (female)" percent of "African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c132_f',
      'denominator'
    );
```

Measure "Central and West African origins (female)" percent of "African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c132_f',
      'denominator'
    );
```

      'denominator'
    );
```

denominator: Central and West African origins (female)

Burkinabe (female)

Measure "Burkinabe (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c137_f'
    );
```

Measure "Burkinabe (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c137_f'
    );
```

Measure "Burkinabe (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c137_f',
      'denominator'
    );
```

Measure "Burkinabe (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c137_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Cameroonian (female)

Measure "Cameroonian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c138_f'
    );
```

Measure "Cameroonian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c138_f'
    );
```

Measure "Cameroonian (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c138_f',
      'denominator'
    );
```

Measure "Cameroonian (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c138_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Central and West African origins, n.i.e. (female)

Measure "Central and West African origins, n.i.e. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
```

```
    'ca.statcan.cols_nhs.t006c155_f'
  );
```

Measure "Central and West African origins, n.i.e. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c155_f'
    );
```

Measure "Central and West African origins, n.i.e. (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c155_f',
      'denominator'
    );
```

Measure "Central and West African origins, n.i.e. (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c155_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Chadian (female)

Measure "Chadian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c139_f'
    );
```

Measure "Chadian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c139_f'
    );
```

Measure "Chadian (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
```

```
    'ca.statcan.cols_nhs.t006c139_f',
    'denominator'
  );
```

Measure "Chadian (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c139_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Congolese (female)

Measure "Congolese (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c140_f'
    );
```

Measure "Congolese (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c140_f'
    );
```

Measure "Congolese (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c140_f',
      'denominator'
    );
```

Measure "Congolese (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c140_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Gabonese (female)

Measure "Gabonese (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c141_f'
    );
```

Measure "Gabonese (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c141_f'
    );
```

Measure "Gabonese (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c141_f',
      'denominator'
    );
```

Measure "Gabonese (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c141_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Gambian (female)

Measure "Gambian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c142_f'
    );
```

Measure "Gambian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c142_f'
    );
```

Measure "Gambian (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
```

```
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_nhs.t006c142_f',
    'denominator'
  );
```

Measure "Gambian (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c142_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Ghanaian (female)

Measure "Ghanaian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c143_f'
    );
```

Measure "Ghanaian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c143_f'
    );
```

Measure "Ghanaian (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c143_f',
      'denominator'
    );
```

Measure "Ghanaian (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c143_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Guinean (female)

Measure "Guinean (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c144_f'
    );
```

Measure "Guinean (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c144_f'
    );
```

Measure "Guinean (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c144_f',
      'denominator'
    );
```

Measure "Guinean (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c144_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Ibo (female)

Measure "Ibo (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c145_f'
    );
```

Measure "Ibo (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c145_f'
    );
```

Measure "Ibo (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c145_f',
      'denominator'
    );
```

Measure "Ibo (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c145_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Ivorian (female)

Measure "Ivorian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c146_f'
    );
```

Measure "Ivorian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c146_f'
    );
```

Measure "Ivorian (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c146_f',
      'denominator'
    );
```

Measure "Ivorian (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c146_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Liberian (female)

Measure "Liberian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c147_f'
    );
```

Measure "Liberian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c147_f'
    );
```

Measure "Liberian (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c147_f',
      'denominator'
    );
```

Measure "Liberian (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c147_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Malian (female)

Measure "Malian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c148_f'
    );
```

Measure "Malian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c148_f'
    );
```

Measure "Malian (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c148_f',
      'denominator'
    );
```

Measure "Malian (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c148_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Nigerian (female)

Measure "Nigerian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c149_f'
    );
```

Measure "Nigerian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c149_f'
    );
```

Measure "Nigerian (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c149_f',
      'denominator'
    );
```

Measure "Nigerian (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c149_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Peulh (female)

Measure "Peulh (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c150_f'
    );
```

Measure "Peulh (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c150_f'
    );
```

Measure "Peulh (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c150_f',
      'denominator'
    );
```

Measure "Peulh (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c150_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Senegalese (female)

Measure "Senegalese (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c151_f'
    );
```

Measure "Senegalese (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c151_f'
    );
```

Measure "Senegalese (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c151_f',
      'denominator'
    );
```

Measure "Senegalese (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c151_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Sierra Leonean (female)

Measure "Sierra Leonean (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c152_f'
    );
```

Measure "Sierra Leonean (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c152_f'
    );
```

Measure "Sierra Leonean (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c152_f',
      'denominator'
    );
```

Measure "Sierra Leonean (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c152_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Togolese (female)

Measure "Togolese (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c153_f'
    );
```

Measure "Togolese (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c153_f'
    );
```

Measure "Togolese (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c153_f',
      'denominator'
    );
```

Measure "Togolese (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c153_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

Yoruba (female)

Measure "Yoruba (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c154_f'
    );
```

Measure "Yoruba (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c154_f'
    );
```

Measure "Yoruba (female)" percent of "Central and West African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c154_f',
      'denominator'
    );
```

Measure "Yoruba (female)" percent of "Central and West African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c154_f',
      'denominator'
    );
```

denominator: Central and West African origins (female)

North African origins (female)

Measure "North African origins (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c156_f'
    );
```

Measure "North African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c156_f'
    );
```

Measure "North African origins (female)" percent of "African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c156_f',
      'denominator'
    );
```

Measure "North African origins (female)" percent of "African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c156_f',
      'denominator'
    );
```

denominator: African origins (female)

      'ca.statcan.cols_nhs.t006c158_f'
    );
```

Measure "Berber (female)" percent of "North African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c158_f',
      'denominator'
    );
```

Measure "Berber (female)" percent of "North African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c158_f',
      'denominator'
    );
```

denominator: North African origins (female)

Coptic (female)

Measure "Coptic (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c159_f'
    );
```

Measure "Coptic (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c159_f'
    );
```

Measure "Coptic (female)" percent of "North African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c159_f',
      'denominator'
    );
```

Measure "Coptic (female)" percent of "North African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c159_f',
      'denominator'
    );
```

denominator: North African origins (female)

Dinka (female)

Measure "Dinka (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c160_f'
    );
```

Measure "Dinka (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c160_f'
    );
```

Measure "Dinka (female)" percent of "North African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c160_f',
      'denominator'
    );
```

Measure "Dinka (female)" percent of "North African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c160_f',
      'denominator'
    );
```

denominator: North African origins (female)

Egyptian (female)

Measure "Egyptian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c161_f'
    );
```

Measure "Egyptian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c161_f'
    );
```

Measure "Egyptian (female)" percent of "North African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c161_f',
      'denominator'
    );
```

Measure "Egyptian (female)" percent of "North African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c161_f',
      'denominator'
    );
```

denominator: North African origins (female)

Libyan (female)

Measure "Libyan (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c162_f'
    );
```

Measure "Libyan (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c162_f'
    );
```

Measure "Libyan (female)" percent of "North African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c162_f',
      'denominator'
    );
```

Measure "Libyan (female)" percent of "North African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),

    );
```

Measure "Maure (female)" percent of "North African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c163_f',
      'denominator'
    );
```

Measure "Maure (female)" percent of "North African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c163_f',
      'denominator'
    );
```

denominator: North African origins (female)

Moroccan (female)

Measure "Moroccan (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c164_f'
    );
```

Measure "Moroccan (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c164_f'
    );
```

Measure "Moroccan (female)" percent of "North African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c164_f',
      'denominator'
    );
```

Measure "Moroccan (female)" percent of "North African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c164_f',
      'denominator'
    );
```

denominator: North African origins (female)

North African origins, n.i.e. (female)

Measure "North African origins, n.i.e. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c167_f'
    );
```

Measure "North African origins, n.i.e. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c167_f'
    );
```

Measure "North African origins, n.i.e. (female)" percent of "North African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =

    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c170_f',
      'denominator'
    );
```

Measure "Amhara (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c170_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Bantu, n.o.s. (female)

Measure "Bantu, n.o.s. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c171_f'
    );
```

Measure "Bantu, n.o.s. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c171_f'
    );
```

Measure "Bantu, n.o.s. (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c171_f',
      'denominator'
    );
```

Measure "Bantu, n.o.s. (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c171_f',
```

```
    'denominator'
  );
```

denominator: Southern and East African origins (female)

Burundian (female)

Measure "Burundian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c172_f'
    );
```

Measure "Burundian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c172_f'
    );
```

Measure "Burundian (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c172_f',
      'denominator'
    );
```

Measure "Burundian (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c172_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Eritrean (female)

Measure "Eritrean (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c173_f'
    );
```

Measure "Eritrean (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c173_f'
    );
```

Measure "Eritrean (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c173_f',
      'denominator'
    );
```

Measure "Eritrean (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c173_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Ethiopian (female)

Measure "Ethiopian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c174_f'
    );
```

Measure "Ethiopian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c174_f'
    );
```

Measure "Ethiopian (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c174_f',
      'denominator'
    );
```

Measure "Ethiopian (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
    'ca.statcan.cols_nhs.t006c174_f',
    'denominator'
  );
```

denominator: Southern and East African origins (female)

Harari (female)

Measure "Harari (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c175_f'
    );
```

Measure "Harari (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c175_f'
    );
```

Measure "Harari (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c175_f',
      'denominator'
    );
```

Measure "Harari (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c175_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Kenyan (female)

Measure "Kenyan (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c176_f'
    );
```

Measure "Kenyan (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c176_f'
    );
```

Measure "Kenyan (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c176_f',
      'denominator'
    );
```

Measure "Kenyan (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c176_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Malagasy (female)

Measure "Malagasy (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c177_f'
    );
```

Measure "Malagasy (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c177_f'
    );
```

Measure "Malagasy (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c177_f',
      'denominator'
    );
```

Measure "Malagasy (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c177_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Mauritian (female)

Measure "Mauritian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c178_f'
    );
```

Measure "Mauritian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c178_f'
    );
```

Measure "Mauritian (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c178_f',
      'denominator'
    );
```

Measure "Mauritian (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c178_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Oromo (female)

Measure "Oromo (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
```

```
    'ca.statcan.cols_nhs.t006c179_f'
  );
```

Measure "Oromo (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c179_f'
    );
```

Measure "Oromo (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c179_f',
      'denominator'
    );
```

Measure "Oromo (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c179_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Rwandan (female)

Measure "Rwandan (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c180_f'
    );
```

Measure "Rwandan (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c180_f'
    );
```

Measure "Rwandan (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c180_f',
      'denominator'
    );
```

2010

Measure "Rwandan (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c180_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Seychellois (female)

Measure "Seychellois (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c181_f'
    );
```

Measure "Seychellois (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c181_f'
    );
```

Measure "Seychellois (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c181_f',
      'denominator'
    );
```

Measure "Seychellois (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c181_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Somali (female)

Measure "Somali (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
```

```
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_nhs.t006c182_f'
  );
```

Measure "Somali (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c182_f'
    );
```

Measure "Somali (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c182_f',
      'denominator'
    );
```

Measure "Somali (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c182_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

South African (female)

Measure "South African (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c183_f'
    );
```

Measure "South African (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c183_f'
    );
```

Measure "South African (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c183_f',
```

```
    'denominator'
  );
```

Measure "South African (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c183_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Southern and East African origins, n.i.e. (female)

Measure "Southern and East African origins, n.i.e. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c190_f'
    );
```

Measure "Southern and East African origins, n.i.e. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c190_f'
    );
```

Measure "Southern and East African origins, n.i.e. (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c190_f',
      'denominator'
    );
```

Measure "Southern and East African origins, n.i.e. (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c190_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Tanzanian (female)

Measure "Tanzanian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c184_f'
    );
```

Measure "Tanzanian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c184_f'
    );
```

Measure "Tanzanian (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c184_f',
      'denominator'
    );
```

Measure "Tanzanian (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c184_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Tigrian (female)

Measure "Tigrian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c185_f'
    );
```

Measure "Tigrian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c185_f'
    );
```

Measure "Tigrian (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c185_f',
      'denominator'
    );
```

Measure "Tigrian (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c185_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Ugandan (female)

Measure "Ugandan (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c186_f'
    );
```

Measure "Ugandan (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c186_f'
    );
```

Measure "Ugandan (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c186_f',
      'denominator'
    );
```

Measure "Ugandan (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c186_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Zambian (female)

Measure "Zambian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c187_f'
    );
```

Measure "Zambian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c187_f'
    );
```

Measure "Zambian (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c187_f',
      'denominator'
    );
```

Measure "Zambian (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c187_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Zimbabwean (female)

Measure "Zimbabwean (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c188_f'
    );
```

Measure "Zimbabwean (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c188_f'
    );
```

Measure "Zimbabwean (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c188_f',
      'denominator'
    );
```

Measure "Zimbabwean (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c188_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

Zulu (female)

Measure "Zulu (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c189_f'
    );
```

Measure "Zulu (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c189_f'
    );
```

Measure "Zulu (female)" percent of "Southern and East African origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c189_f',
      'denominator'
    );
```

Measure "Zulu (female)" percent of "Southern and East African origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c189_f',
      'denominator'
    );
```

denominator: Southern and East African origins (female)

African origins (male)

Measure "African origins (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c131_m'
    );
```

Measure "African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c131_m'
    );
```

Measure "African origins (male)" percent of "Total number of persons in private households (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c131_m',
      'denominator'
    );
```

Measure "African origins (male)" percent of "Total number of persons in private households (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c131_m',
      'denominator'
    );
```

denominator: Total number of persons in private households (male)

Central and West African origins (male) 2018

North African origins (male) 2035

Other African origins (male) 2044

Southern and East African origins (male) 2046

Central and West African origins (male)

Measure "Central and West African origins (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c132_m'
    );
```

Measure "Central and West African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),

    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c139_m'
    );
```

Measure "Chadian (male)" percent of "Central and West African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c139_m',
      'denominator'
    );
```

Measure "Chadian (male)" percent of "Central and West African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c139_m',
      'denominator'
    );
```

denominator: Central and West African origins (male)

Congolese (male)

Measure "Congolese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c140_m'
    );
```

Measure "Congolese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c140_m'
    );
```

Measure "Congolese (male)" percent of "Central and West African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c140_m',
      'denominator'
    );
```

Measure "Congolese (male)" percent of "Central and West African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c140_m',
      'denominator'
    );
```

denominator: Central and West African origins (male)

Gabonese (male)

Measure "Gabonese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c141_m'
    );
```

Measure "Gabonese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c141_m'
    );
```

Measure "Gabonese (male)" percent of "Central and West African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c141_m',
      'denominator'
    );
```

Measure "Gabonese (male)" percent of "Central and West African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c141_m',
      'denominator'
    );
```

denominator: Central and West African origins (male)

Gambian (male)

Measure "Gambian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
```

```
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_nhs.t006c142_m'
  );
```

Measure "Gambian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c142_m'
    );
```

Measure "Gambian (male)" percent of "Central and West African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c142_m',
      'denominator'
    );
```

Measure "Gambian (male)" percent of "Central and West African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c142_m',
      'denominator'
    );
```

denominator: Central and West African origins (male)

Ghanaian (male)

Measure "Ghanaian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c143_m'
    );
```

Measure "Ghanaian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),

      'ca.statcan.cols_nhs.t006c145_m',
      'denominator'
    );
```

Measure "Ibo (male)" percent of "Central and West African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c145_m',
      'denominator'
    );
```

denominator: Central and West African origins (male)

Ivorian (male)

Measure "Ivorian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c146_m'
    );
```

Measure "Ivorian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c146_m'
    );
```

Measure "Ivorian (male)" percent of "Central and West African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
```

```
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_nhs.t006c146_m',
    'denominator'
  );
```

Measure "Ivorian (male)" percent of "Central and West African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c146_m',
      'denominator'
    );
```

denominator: Central and West African origins (male)

Liberian (male)

Measure "Liberian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c147_m'
    );
```

Measure "Liberian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c147_m'
    );
```

Measure "Liberian (male)" percent of "Central and West African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c147_m',
      'denominator'
    );
```

Measure "Liberian (male)" percent of "Central and West African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c147_m',
      'denominator'
    );
```

denominator: Central and West African origins (male)

Malian (male)

Measure "Malian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c148_m'
    );
```

Measure "Malian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c148_m'
    );
```

Measure "Malian (male)" percent of "Central and West African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c148_m',
      'denominator'
    );
```

Measure "Malian (male)" percent of "Central and West African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c148_m',
      'denominator'
    );
```

denominator: Central and West African origins (male)

Nigerian (male)

Measure "Nigerian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c149_m'
    );
```

Measure "Nigerian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c149_m'
    );
```

Measure "Nigerian (male)" percent of "Central and West African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
     'ca.statcan.cols_nhs.t006c149_m',
     'denominator'
    );
```

Measure "Nigerian (male)" percent of "Central and West African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
     'ca.statcan.cols_nhs.t006c149_m',
     'denominator'
    );
```

denominator: Central and West African origins (male)

Peulh (male)

Measure "Peulh (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
     'ca.statcan.cols_nhs.t006c150_m'
    );
```

Measure "Peulh (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
     'ca.statcan.cols_nhs.t006c150_m'
    );
```

Measure "Peulh (male)" percent of "Central and West African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
     'ca.statcan.cols_nhs.t006c150_m',
     'denominator'
    );
```

Measure "Peulh (male)" percent of "Central and West African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
     'ca.statcan.cols_nhs.t006c150_m',
     'denominator'
    );
```

denominator: Central and West African origins (male)

Senegalese (male)

Measure "Senegalese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c151_m'
    );
```

Measure "Senegalese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c151_m'
    );
```

Measure "Senegalese (male)" percent of "Central and West African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c151_m',
      'denominator'
    );
```

Measure "Senegalese (male)" percent of "Central and West African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c151_m',
      'denominator'
    );
```

denominator: Central and West African origins (male)

Sierra Leonean (male)

Measure "Sierra Leonean (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c152_m'
    );
```

Measure "Sierra Leonean (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c152_m'
    );
```

Measure "Sierra Leonean (male)" percent of "Central and West African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c152_m',
      'denominator'
    );
```

Measure "Sierra Leonean (male)" percent of "Central and West African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c152_m',
      'denominator'
    );
```

denominator: Central and West African origins (male)

Togolese (male)

Measure "Togolese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c153_m'
    );
```

Measure "Togolese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c153_m'
    );
```

Measure "Togolese (male)" percent of "Central and West African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c153_m',
      'denominator'
    );
```

Measure "Togolese (male)" percent of "Central and West African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c153_m',
      'denominator'
    );
```

denominator: Central and West African origins (male)

Yoruba (male)

Measure "Yoruba (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c154_m'
    );
```

Measure "Yoruba (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c154_m'
    );
```

Measure "Yoruba (male)" percent of "Central and West African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c154_m',
      'denominator'
    );
```

Measure "Yoruba (male)" percent of "Central and West African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),

Measure "Algerian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c157_m'
    );
```

Measure "Algerian (male)" percent of "North African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c157_m',
      'denominator'
    );
```

Measure "Algerian (male)" percent of "North African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c157_m',
      'denominator'
    );
```

denominator: North African origins (male)

Berber (male)

Measure "Berber (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c158_m'
    );
```

Measure "Berber (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c158_m'
    );
```

Measure "Berber (male)" percent of "North African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c158_m',
      'denominator'
    );
```

Measure "Berber (male)" percent of "North African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c158_m',
      'denominator'
    );
```

denominator: North African origins (male)

Coptic (male)

Measure "Coptic (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c159_m'
    );
```

Measure "Coptic (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c159_m'
    );
```

Measure "Coptic (male)" percent of "North African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c159_m',
      'denominator'
    );
```

Measure "Coptic (male)" percent of "North African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c159_m',
      'denominator'
    );
```

denominator: North African origins (male)

Dinka (male)

Measure "Dinka (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c160_m'
    );
```

Measure "Dinka (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c160_m'
    );
```

Measure "Dinka (male)" percent of "North African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c160_m',
      'denominator'
    );
```

Measure "Dinka (male)" percent of "North African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c160_m',
      'denominator'
    );
```

denominator: North African origins (male)

Egyptian (male)

Measure "Egyptian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),

    );
```

Measure "Egyptian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c161_m'
    );
```

Measure "Egyptian (male)" percent of "North African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c161_m',
      'denominator'
    );
```

Measure "Egyptian (male)" percent of "North African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c161_m',
      'denominator'
    );
```

denominator: North African origins (male)

Libyan (male)

Measure "Libyan (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c162_m'
    );
```

Measure "Libyan (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c162_m'
    );
```

Measure "Libyan (male)" percent of "North African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c162_m',
      'denominator'
    );
```

Measure "Libyan (male)" percent of "North African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c162_m',
      'denominator'
    );
```

denominator: North African origins (male)

Maure (male)

Measure "Maure (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c163_m'
    );
```

Measure "Maure (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c163_m'
    );
```

Measure "Maure (male)" percent of "North African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c163_m',
      'denominator'
    );
```

Measure "Maure (male)" percent of "North African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c163_m',
      'denominator'
    );
```

denominator: North African origins (male)

Moroccan (male)

Measure "Moroccan (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c164_m'
    );
```

Measure "Moroccan (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c164_m'
    );
```

Measure "Moroccan (male)" percent of "North African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c164_m',
      'denominator'
    );
```

Measure "Moroccan (male)" percent of "North African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c164_m',
      'denominator'
    );
```

denominator: North African origins (male)

North African origins, n.i.e. (male)

Measure "North African origins, n.i.e. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c167_m'
    );
```

Measure "North African origins, n.i.e. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c167_m'
    );
```

Measure "North African origins, n.i.e. (male)" percent of "North African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c167_m',
      'denominator'
    );
```

Measure "North African origins, n.i.e. (male)" percent of "North African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c167_m',
      'denominator'
    );
```

denominator: North African origins (male)

Sudanese (male)

Measure "Sudanese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),

    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c169_m',
      'denominator'
    );
```

Measure "Afrikaner (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c169_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Amhara (male)

Measure "Amhara (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c170_m'
    );
```

Measure "Amhara (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c170_m'
    );
```

Measure "Amhara (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c170_m',
      'denominator'
    );
```

Measure "Amhara (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c170_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Bantu, n.o.s. (male)

Measure "Bantu, n.o.s. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c171_m'
    );
```

Measure "Bantu, n.o.s. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
```

```
    'ca.statcan.cols_nhs.t006c171_m'
  );
```

Measure "Bantu, n.o.s. (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c171_m',
      'denominator'
    );
```

Measure "Bantu, n.o.s. (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c171_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Burundian (male)

Measure "Burundian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c172_m'
    );
```

Measure "Burundian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c172_m'
    );
```

Measure "Burundian (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c172_m',
      'denominator'
    );
```

Measure "Burundian (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c172_m',
```

```
    'denominator'
  );
```

denominator: Southern and East African origins (male)

Eritrean (male)

Measure "Eritrean (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c173_m'
    );
```

Measure "Eritrean (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c173_m'
    );
```

Measure "Eritrean (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c173_m',
      'denominator'
    );
```

Measure "Eritrean (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c173_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Ethiopian (male)

Measure "Ethiopian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c174_m'
    );
```

Measure "Ethiopian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c174_m'
    );
```

Measure "Ethiopian (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c174_m',
      'denominator'
    );
```

Measure "Ethiopian (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c174_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Harari (male)

Measure "Harari (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c175_m'
    );
```

Measure "Harari (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c175_m'
    );
```

Measure "Harari (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c175_m',
      'denominator'
    );
```

Measure "Harari (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
    'ca.statcan.cols_nhs.t006c175_m',
    'denominator'
  );
```

denominator: Southern and East African origins (male)

Kenyan (male)

Measure "Kenyan (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c176_m'
    );
```

Measure "Kenyan (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c176_m'
    );
```

Measure "Kenyan (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c176_m',
      'denominator'
    );
```

Measure "Kenyan (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c176_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Malagasy (male)

Measure "Malagasy (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c177_m'
    );
```

Measure "Malagasy (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c177_m'
    );
```

Measure "Malagasy (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c177_m',
      'denominator'
    );
```

Measure "Malagasy (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c177_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Mauritian (male)

Measure "Mauritian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c178_m'
    );
```

Measure "Mauritian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c178_m'
    );
```

Measure "Mauritian (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c178_m',
      'denominator'
    );
```

Measure "Mauritian (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c178_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Oromo (male)

Measure "Oromo (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c179_m'
    );
```

Measure "Oromo (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c179_m'
    );
```

Measure "Oromo (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c179_m',
      'denominator'
    );
```

Measure "Oromo (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c179_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Rwandan (male)

Measure "Rwandan (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
```

```
    'ca.statcan.cols_nhs.t006c180_m'
  );
```

Measure "Rwandan (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c180_m'
    );
```

Measure "Rwandan (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c180_m',
      'denominator'
    );
```

Measure "Rwandan (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c180_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Seychellois (male)

Measure "Seychellois (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c181_m'
    );
```

Measure "Seychellois (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c181_m'
    );
```

Measure "Seychellois (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c181_m',
      'denominator'
    );
```

Measure "Seychellois (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c181_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Somali (male)

Measure "Somali (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c182_m'
    );
```

Measure "Somali (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c182_m'
    );
```

Measure "Somali (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c182_m',
      'denominator'
    );
```

Measure "Somali (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c182_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

South African (male)

Measure "South African (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
```

```
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_nhs.t006c183_m'
  );
```

Measure "South African (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c183_m'
    );
```

Measure "South African (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c183_m',
      'denominator'
    );
```

Measure "South African (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c183_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Southern and East African origins, n.i.e. (male)

Measure "Southern and East African origins, n.i.e. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c190_m'
    );
```

Measure "Southern and East African origins, n.i.e. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c190_m'
    );
```

Measure "Southern and East African origins, n.i.e. (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
```

```
    'ca.statcan.cols_nhs.t006c190_m',
    'denominator'
  );
```

Measure "Southern and East African origins, n.i.e. (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c190_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Tanzanian (male)

Measure "Tanzanian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c184_m'
    );
```

Measure "Tanzanian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c184_m'
    );
```

Measure "Tanzanian (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c184_m',
      'denominator'
    );
```

Measure "Tanzanian (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c184_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Tigrian (male)

Measure "Tigrian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c185_m'
    );
```

Measure "Tigrian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c185_m'
    );
```

Measure "Tigrian (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c185_m',
      'denominator'
    );
```

Measure "Tigrian (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c185_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Ugandan (male)

Measure "Ugandan (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c186_m'
    );
```

Measure "Ugandan (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c186_m'
    );
```

Measure "Ugandan (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c186_m',
      'denominator'
    );
```

Measure "Ugandan (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c186_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Zambian (male)

Measure "Zambian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c187_m'
    );
```

Measure "Zambian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c187_m'
    );
```

Measure "Zambian (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c187_m',
      'denominator'
    );
```

Measure "Zambian (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c187_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Zimbabwean (male)

Measure "Zimbabwean (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c188_m'
    );
```

Measure "Zimbabwean (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c188_m'
    );
```

Measure "Zimbabwean (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c188_m',
      'denominator'
    );
```

Measure "Zimbabwean (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c188_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Zulu (male)

Measure "Zulu (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c189_m'
    );
```

Measure "Zulu (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c189_m'
    );
```

Measure "Zulu (male)" percent of "Southern and East African origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c189_m',
      'denominator'
    );
```

Measure "Zulu (male)" percent of "Southern and East African origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c189_m',
      'denominator'
    );
```

denominator: Southern and East African origins (male)

Asian origins (female)

Measure "Asian origins (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c194_f'
    );
```

Measure "Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c194_f'
    );
```

Measure "Asian origins (female)" percent of "Total number of persons in private households (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c194_f',
      'denominator'
    );
```

Measure "Asian origins (female)" percent of "Total number of persons in private households (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c194_f',
      'denominator'
    );
```

denominator: Total number of persons in private households (female)

East and Southeast Asian origins (female) 2063
Other Asian origins (female) 2075
South Asian origins (female) 2077
West Central Asian and Middle Eastern origins (female) 2087

East and Southeast Asian origins (female)

Measure "East and Southeast Asian origins (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c235_f'
    );
```

Measure "East and Southeast Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c235_f'
    );
```

Measure "East and Southeast Asian origins (female)" percent of "Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c235_f',
      'denominator'
    );
```

Measure "East and Southeast Asian origins (female)" percent of "Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c235_f',

      'denominator'
    );
```

Measure "Japanese (female)" percent of "East and Southeast Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c242_f',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (female)

Korean (female)

Measure "Korean (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c243_f'
    );
```

Measure "Korean (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c243_f'
    );
```

Measure "Korean (female)" percent of "East and Southeast Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c243_f',
      'denominator'
    );
```

Measure "Korean (female)" percent of "East and Southeast Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c243_f',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (female)

Laotian (female)

Measure "Laotian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c244_f'
    );
```

Measure "Laotian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c244_f'
    );
```

Measure "Laotian (female)" percent of "East and Southeast Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c244_f',
      'denominator'
    );
```

Measure "Laotian (female)" percent of "East and Southeast Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
    'ca.statcan.cols_nhs.t006c244_f',
    'denominator'
  );
```

denominator: East and Southeast Asian origins (female)

Malaysian (female)

Measure "Malaysian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c245_f'
    );
```

Measure "Malaysian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c245_f'
    );
```

Measure "Malaysian (female)" percent of "East and Southeast Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c245_f',
      'denominator'
    );
```

Measure "Malaysian (female)" percent of "East and Southeast Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c245_f',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (female)

Mongolian (female)

Measure "Mongolian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c246_f'
    );
```

Measure "Mongolian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c246_f'
    );
```

Measure "Mongolian (female)" percent of "East and Southeast Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c246_f',
      'denominator'
    );
```

Measure "Mongolian (female)" percent of "East and Southeast Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c246_f',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (female)

Singaporean (female)

Measure "Singaporean (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c247_f'
    );
```

Measure "Singaporean (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c247_f'
    );
```

Measure "Singaporean (female)" percent of "East and Southeast Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c247_f',
      'denominator'
    );
```

Measure "Singaporean (female)" percent of "East and Southeast Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c247_f',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (female)

Taiwanese (female)

Measure "Taiwanese (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c248_f'
    );
```

Measure "Taiwanese (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c248_f'
    );
```

Measure "Taiwanese (female)" percent of "East and Southeast Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c248_f',
      'denominator'
    );
```

Measure "Taiwanese (female)" percent of "East and Southeast Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c248_f',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (female)

Thai (female)

Measure "Thai (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
```

```
    'ca.statcan.cols_nhs.t006c249_f'
  );
```

Measure "Thai (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c249_f'
    );
```

Measure "Thai (female)" percent of "East and Southeast Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c249_f',
      'denominator'
    );
```

Measure "Thai (female)" percent of "East and Southeast Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c249_f',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (female)

Tibetan (female)

Measure "Tibetan (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c250_f'
    );
```

Measure "Tibetan (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c250_f'
    );
```

Measure "Tibetan (female)" percent of "East and Southeast Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c250_f',
      'denominator'
    );
```

Measure "Tibetan (female)" percent of "East and Southeast Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c250_f',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (female)

Vietnamese (female)

Measure "Vietnamese (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c251_f'
    );
```

Measure "Vietnamese (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c251_f'
    );
```

Measure "Vietnamese (female)" percent of "East and Southeast Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c251_f',
      'denominator'
    );
```

Measure "Vietnamese (female)" percent of "East and Southeast Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c251_f',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (female)

Other Asian origins (female)

Measure "Other Asian origins (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
```

```
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_nhs.t006c253_f'
  );
```

Measure "Other Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c253_f'
    );
```

Measure "Other Asian origins (female)" percent of "Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c253_f',
      'denominator'
    );
```

Measure "Other Asian origins (female)" percent of "Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c253_f',
      'denominator'
    );
```

denominator: Asian origins (female)

Other Asian origins, n.i.e. (female) 2076

Other Asian origins, n.i.e. (female)

Measure "Other Asian origins, n.i.e. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c254_f'
    );
```

Measure "Other Asian origins, n.i.e. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c254_f'
    );
```

Measure "Other Asian origins, n.i.e. (female)" percent of "Other Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =

    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c225_f'
    );
```

Measure "Goan (female)" percent of "South Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c225_f',
      'denominator'
    );
```

Measure "Goan (female)" percent of "South Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c225_f',
      'denominator'
    );
```

denominator: South Asian origins (female)

Gujarati (female)

Measure "Gujarati (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c226_f'
    );
```

Measure "Gujarati (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c226_f'
    );
```

Measure "Gujarati (female)" percent of "South Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c226_f',
      'denominator'
    );
```

Measure "Gujarati (female)" percent of "South Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c226_f',
      'denominator'
    );
```

denominator: South Asian origins (female)

Kashmiri (female)

Measure "Kashmiri (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c227_f'
    );
```

Measure "Kashmiri (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c227_f'
    );
```

Measure "Kashmiri (female)" percent of "South Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c227_f',
      'denominator'
    );
```

Measure "Kashmiri (female)" percent of "South Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c227_f',
      'denominator'
    );
```

denominator: South Asian origins (female)

Nepali (female)

Measure "Nepali (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c228_f'
    );
```

Measure "Nepali (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c228_f'
    );
```

Measure "Nepali (female)" percent of "South Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c228_f',
      'denominator'
    );
```

Measure "Nepali (female)" percent of "South Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c228_f',
      'denominator'
    );
```

denominator: South Asian origins (female)

Pakistani (female)

Measure "Pakistani (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c229_f'
    );
```

Measure "Pakistani (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c229_f'
    );
```

Measure "Pakistani (female)" percent of "South Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c229_f',
      'denominator'
    );
```

Measure "Pakistani (female)" percent of "South Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c229_f',
      'denominator'
    );
```

denominator: South Asian origins (female)

Punjabi (female)

Measure "Punjabi (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c230_f'
    );
```

Measure "Punjabi (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c230_f'
    );
```

Measure "Punjabi (female)" percent of "South Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c230_f',
      'denominator'
    );
```

Measure "Punjabi (female)" percent of "South Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c230_f',
      'denominator'
    );
```

denominator: South Asian origins (female)

Sinhalese (female)

Measure "Sinhalese (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c231_f'
    );
```

Measure "Sinhalese (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c231_f'
    );
```

Measure "Sinhalese (female)" percent of "South Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c231_f',
      'denominator'
    );
```

Measure "Sinhalese (female)" percent of "South Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c231_f',
      'denominator'
    );
```

denominator: South Asian origins (female)

South Asian origins, n.i.e. (female)

Measure "South Asian origins, n.i.e. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c234_f'
    );
```

Measure "South Asian origins, n.i.e. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c234_f'
    );
```

Measure "South Asian origins, n.i.e. (female)" percent of "South Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c234_f',
      'denominator'
    );
```

Measure "South Asian origins, n.i.e. (female)" percent of "South Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c234_f',
      'denominator'
    );
```

denominator: South Asian origins (female)

Sri Lankan (female)

Measure "Sri Lankan (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c232_f'
    );
```

Measure "Sri Lankan (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c232_f'
    );
```

Measure "Sri Lankan (female)" percent of "South Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c232_f',
      'denominator'
    );
```

Measure "Sri Lankan (female)" percent of "South Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c232_f',
      'denominator'
    );
```

denominator: South Asian origins (female)

Tamil (female)

Measure "Tamil (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c233_f'
    );
```

Measure "Tamil (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c233_f'
    );
```

Measure "Tamil (female)" percent of "South Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c233_f',
      'denominator'
    );
```

Measure "Tamil (female)" percent of "South Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c233_f',
      'denominator'
    );
```

denominator: South Asian origins (female)

West Central Asian and Middle Eastern origins (female)

Measure "West Central Asian and Middle Eastern origins (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
     'ca.statcan.cols_nhs.t006c195_f'
    );
```

Measure "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
     'ca.statcan.cols_nhs.t006c195_f'
    );
```

Measure "West Central Asian and Middle Eastern origins (female)" percent of "Asian origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
     'ca.statcan.cols_nhs.t006c195_f',
     'denominator'
    );
```

Measure "West Central Asian and Middle Eastern origins (female)" percent of "Asian origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
     'ca.statcan.cols_nhs.t006c195_f',
     'denominator'
    );
```

      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c200_f',
      'denominator'
    );
```

Measure "Azerbaijani (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c200_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Georgian (female)

Measure "Georgian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c201_f'
    );
```

Measure "Georgian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c201_f'
    );
```

Measure "Georgian (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c201_f',
      'denominator'
    );
```

Measure "Georgian (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c201_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Iranian (female)

Measure "Iranian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c202_f'
    );
```

Measure "Iranian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c202_f'
    );
```

Measure "Iranian (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c202_f',
      'denominator'
    );
```

Measure "Iranian (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c202_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Iraqi (female)

Measure "Iraqi (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c203_f'
    );
```

Measure "Iraqi (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c203_f'
    );
```

Measure "Iraqi (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c203_f',
      'denominator'
    );
```

Measure "Iraqi (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c203_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Israeli (female)

Measure "Israeli (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c204_f'
    );
```

Measure "Israeli (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c204_f'
    );
```

Measure "Israeli (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c204_f',
      'denominator'
    );
```

Measure "Israeli (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c204_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Jordanian (female)

Measure "Jordanian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c205_f'
    );
```

Measure "Jordanian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c205_f'
    );
```

Measure "Jordanian (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c205_f',
      'denominator'
    );
```

Measure "Jordanian (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c205_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Kazakh (female)

Measure "Kazakh (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c206_f'
    );
```

Measure "Kazakh (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c206_f'
    );
```

Measure "Kazakh (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c206_f',
      'denominator'
    );
```

Measure "Kazakh (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c206_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Kurd (female)

Measure "Kurd (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c207_f'
    );
```

Measure "Kurd (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c207_f'
    );
```

Measure "Kurd (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c207_f',
      'denominator'
    );
```

Measure "Kurd (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c207_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Kuwaiti (female)

Measure "Kuwaiti (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c208_f'
    );
```

Measure "Kuwaiti (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c208_f'
    );
```

Measure "Kuwaiti (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c208_f',
      'denominator'
    );
```

Measure "Kuwaiti (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c208_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Lebanese (female)

Measure "Lebanese (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c209_f'
    );
```

Measure "Lebanese (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c209_f'
    );
```

Measure "Lebanese (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c209_f',
      'denominator'
    );
```

Measure "Lebanese (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c209_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Palestinian (female)

Measure "Palestinian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c210_f'
    );
```

Measure "Palestinian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c210_f'
    );
```

Measure "Palestinian (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c210_f',
      'denominator'
    );
```

Measure "Palestinian (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c210_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Pashtun (female)

Measure "Pashtun (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c211_f'
    );
```

Measure "Pashtun (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c211_f'
    );
```

Measure "Pashtun (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c211_f',
      'denominator'
    );
```

Measure "Pashtun (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c211_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Saudi Arabian (female)

Measure "Saudi Arabian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c212_f'
    );
```

Measure "Saudi Arabian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c212_f'
    );
```

Measure "Saudi Arabian (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c212_f',
      'denominator'
    );
```

Measure "Saudi Arabian (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c212_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Syrian (female)

Measure "Syrian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c213_f'
    );
```

Measure "Syrian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c213_f'
    );
```

Measure "Syrian (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c213_f',
      'denominator'
    );
```

Measure "Syrian (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c213_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Tajik (female)

Measure "Tajik (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c214_f'
    );
```

Measure "Tajik (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c214_f'
    );
```

Measure "Tajik (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c214_f',
      'denominator'
    );
```

Measure "Tajik (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c214_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Tatar (female)

Measure "Tatar (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c215_f'
    );
```

Measure "Tatar (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c215_f'
    );
```

Measure "Tatar (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c215_f',
      'denominator'
    );
```

Measure "Tatar (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c215_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Turk (female)

Measure "Turk (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c216_f'
    );
```

Measure "Turk (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c216_f'
    );
```

Measure "Turk (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c216_f',
      'denominator'
    );
```

Measure "Turk (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c216_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Uighur (female)

Measure "Uighur (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c217_f'
    );
```

Measure "Uighur (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c217_f'
    );
```

Measure "Uighur (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c217_f',
      'denominator'
    );
```

Measure "Uighur (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c217_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Uzbek (female)

Measure "Uzbek (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c218_f'
    );
```

Measure "Uzbek (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c218_f'
    );
```

Measure "Uzbek (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c218_f',
      'denominator'
    );
```

Measure "Uzbek (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c218_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

West Central Asian and Middle Eastern origins, n.i.e. (female)

Measure "West Central Asian and Middle Eastern origins, n.i.e. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c220_f'
    );
```

Measure "West Central Asian and Middle Eastern origins, n.i.e. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c220_f'
    );
```

Measure "West Central Asian and Middle Eastern origins, n.i.e. (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c220_f',
      'denominator'
    );
```

Measure "West Central Asian and Middle Eastern origins, n.i.e. (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c220_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Yemeni (female)

Measure "Yemeni (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c219_f'
    );
```

Measure "Yemeni (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c219_f'
    );
```

Measure "Yemeni (female)" percent of "West Central Asian and Middle Eastern origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c219_f',
      'denominator'
    );
```

Measure "Yemeni (female)" percent of "West Central Asian and Middle Eastern origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c219_f',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (female)

Asian origins (male)

Measure "Asian origins (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c194_m'
    );
```

Measure "Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c194_m'
    );
```

Measure "Asian origins (male)" percent of "Total number of persons in private households (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c194_m',
      'denominator'
    );
```

Measure "Asian origins (male)" percent of "Total number of persons in private households (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c194_m',
      'denominator'
    );
```

denominator: Total number of persons in private households (male)

East and Southeast Asian origins (male) 2107

Other Asian origins (male) 2119

South Asian origins (male) 2121

West Central Asian and Middle Eastern origins (male) 2130

East and Southeast Asian origins (male)

Measure "East and Southeast Asian origins (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c235_m'
    );
```

Measure "East and Southeast Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),

      'ca.statcan.cols_nhs.t006c243_m',
      'denominator'
    );
```

Measure "Korean (male)" percent of "East and Southeast Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c243_m',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (male)

Laotian (male)

Measure "Laotian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c244_m'
    );
```

Measure "Laotian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c244_m'
    );
```

Measure "Laotian (male)" percent of "East and Southeast Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c244_m',
      'denominator'
    );
```

Measure "Laotian (male)" percent of "East and Southeast Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c244_m',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (male)

Malaysian (male)

Measure "Malaysian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c245_m'
    );
```

Measure "Malaysian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c245_m'
    );
```

Measure "Malaysian (male)" percent of "East and Southeast Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c245_m',
      'denominator'
    );
```

Measure "Malaysian (male)" percent of "East and Southeast Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c245_m',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (male)

Mongolian (male)

Measure "Mongolian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c246_m'
    );
```

Measure "Mongolian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c246_m'
    );
```

Measure "Mongolian (male)" percent of "East and Southeast Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c246_m',
      'denominator'
    );
```

Measure "Mongolian (male)" percent of "East and Southeast Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c246_m',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (male)

Singaporean (male)

Measure "Singaporean (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c247_m'
    );
```

Measure "Singaporean (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c247_m'
    );
```

Measure "Singaporean (male)" percent of "East and Southeast Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c247_m',
      'denominator'
    );
```

Measure "Singaporean (male)" percent of "East and Southeast Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c247_m',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (male)

Taiwanese (male)

Measure "Taiwanese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c248_m'
    );
```

Measure "Taiwanese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c248_m'
    );
```

Measure "Taiwanese (male)" percent of "East and Southeast Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c248_m',
      'denominator'
    );
```

Measure "Taiwanese (male)" percent of "East and Southeast Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c248_m',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (male)

Thai (male)

Measure "Thai (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c249_m'
    );
```

Measure "Thai (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c249_m'
    );
```

Measure "Thai (male)" percent of "East and Southeast Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c249_m',
      'denominator'
    );
```

Measure "Thai (male)" percent of "East and Southeast Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c249_m',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (male)

Tibetan (male)

Measure "Tibetan (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c250_m'
    );
```

Measure "Tibetan (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c250_m'
    );
```

Measure "Tibetan (male)" percent of "East and Southeast Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c250_m',
      'denominator'
    );
```

Measure "Tibetan (male)" percent of "East and Southeast Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c250_m',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (male)

Vietnamese (male)

Measure "Vietnamese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c251_m'
    );
```

Measure "Vietnamese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c251_m'
    );
```

Measure "Vietnamese (male)" percent of "East and Southeast Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c251_m',
      'denominator'
    );
```

Measure "Vietnamese (male)" percent of "East and Southeast Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c251_m',
      'denominator'
    );
```

denominator: East and Southeast Asian origins (male)

Other Asian origins (male)

Measure "Other Asian origins (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c253_m'
    );
```

Measure "Other Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c253_m'
    );
```

Measure "Other Asian origins (male)" percent of "Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c253_m',
      'denominator'
    );
```

Measure "Other Asian origins (male)" percent of "Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c253_m',
      'denominator'
    );
```

denominator: Asian origins (male)

Other Asian origins, n.i.e. (male) 2120

Other Asian origins, n.i.e. (male)

Measure "Other Asian origins, n.i.e. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c254_m'
    );
```

Measure "Other Asian origins, n.i.e. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c254_m'
    );
```

Measure "Other Asian origins, n.i.e. (male)" percent of "Other Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c254_m',
      'denominator'
    );
```

Measure "Other Asian origins, n.i.e. (male)" percent of "Other Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c254_m',
      'denominator'
    );
```

denominator: Other Asian origins (male)

South Asian origins (male)

Measure "South Asian origins (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c221_m'
    );
```

Measure "South Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c221_m'
    );
```

Measure "South Asian origins (male)" percent of "Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c221_m',
      'denominator'
    );
```

Measure "South Asian origins (male)" percent of "Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),

    );
```

denominator: South Asian origins (male)

Gujarati (male)

Measure "Gujarati (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c226_m'
    );
```

Measure "Gujarati (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c226_m'
    );
```

Measure "Gujarati (male)" percent of "South Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c226_m',
      'denominator'
    );
```

Measure "Gujarati (male)" percent of "South Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c226_m',
      'denominator'
    );
```

denominator: South Asian origins (male)

Kashmiri (male)

Measure "Kashmiri (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c227_m'
    );
```

Measure "Kashmiri (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c227_m'
    );
```

Measure "Kashmiri (male)" percent of "South Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c227_m',
      'denominator'
    );
```

Measure "Kashmiri (male)" percent of "South Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c227_m',
      'denominator'
    );
```

denominator: South Asian origins (male)

Nepali (male)

Measure "Nepali (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c228_m'
    );
```

Measure "Nepali (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c228_m'
    );
```

Measure "Nepali (male)" percent of "South Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c228_m',
      'denominator'
    );
```

Measure "Nepali (male)" percent of "South Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c228_m',
      'denominator'
    );
```

denominator: South Asian origins (male)

Pakistani (male)

Measure "Pakistani (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c229_m'
    );
```

Measure "Pakistani (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c229_m'
    );
```

Measure "Pakistani (male)" percent of "South Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c229_m',
      'denominator'
    );
```

Measure "Pakistani (male)" percent of "South Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c229_m',
      'denominator'
    );
```

denominator: South Asian origins (male)

Punjabi (male)

Measure "Punjabi (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c230_m'
    );
```

Measure "Punjabi (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c230_m'
    );
```

Measure "Punjabi (male)" percent of "South Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c230_m',
      'denominator'
    );
```

Measure "Punjabi (male)" percent of "South Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c230_m',
      'denominator'
    );
```

denominator: South Asian origins (male)

Sinhalese (male)

Measure "Sinhalese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c231_m'
    );
```

Measure "Sinhalese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c231_m'
    );
```

Measure "Sinhalese (male)" percent of "South Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c231_m',
      'denominator'
    );
```

Measure "Sinhalese (male)" percent of "South Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c231_m',
      'denominator'
    );
```

denominator: South Asian origins (male)

South Asian origins, n.i.e. (male)

Measure "South Asian origins, n.i.e. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c234_m'
    );
```

Measure "South Asian origins, n.i.e. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c234_m'
    );
```

Measure "South Asian origins, n.i.e. (male)" percent of "South Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c234_m',
      'denominator'
    );
```

Measure "South Asian origins, n.i.e. (male)" percent of "South Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c234_m',
      'denominator'
    );
```

denominator: South Asian origins (male)

Sri Lankan (male)

Measure "Sri Lankan (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c232_m'
    );
```

Measure "Sri Lankan (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c232_m'
    );
```

Measure "Sri Lankan (male)" percent of "South Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c232_m',
      'denominator'
    );
```

Measure "Sri Lankan (male)" percent of "South Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c232_m',
      'denominator'
    );
```

denominator: South Asian origins (male)

Tamil (male)

Measure "Tamil (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c233_m'
    );
```

Measure "Tamil (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c233_m'
    );
```

Measure "Tamil (male)" percent of "South Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c233_m',
      'denominator'
    );
```

Measure "Tamil (male)" percent of "South Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c233_m',
      'denominator'
    );
```

denominator: South Asian origins (male)

West Central Asian and Middle Eastern origins (male)

Measure "West Central Asian and Middle Eastern origins (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c195_m'
    );
```

Measure "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c195_m'
    );
```

Measure "West Central Asian and Middle Eastern origins (male)" percent of "Asian origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c195_m',
      'denominator'
    );
```

Measure "West Central Asian and Middle Eastern origins (male)" percent of "Asian origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c195_m',
      'denominator'
    );
```

      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c200_m',
      'denominator'
    );
```

Measure "Azerbaijani (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c200_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Georgian (male)

Measure "Georgian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c201_m'
    );
```

Measure "Georgian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c201_m'
    );
```

Measure "Georgian (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c201_m',
      'denominator'
    );
```

Measure "Georgian (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c201_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Iranian (male)

Measure "Iranian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c202_m'
    );
```

Measure "Iranian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c202_m'
    );
```

Measure "Iranian (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c202_m',
      'denominator'
    );
```

Measure "Iranian (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c202_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Iraqi (male)

Measure "Iraqi (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c203_m'
    );
```

Measure "Iraqi (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c203_m'
    );
```

Measure "Iraqi (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c203_m',
      'denominator'
    );
```

Measure "Iraqi (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c203_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Israeli (male)

Measure "Israeli (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c204_m'
    );
```

Measure "Israeli (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
```

```
    ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
    'ca.statcan.cols_nhs.t006c204_m'
  );
```

Measure "Israeli (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c204_m',
      'denominator'
    );
```

Measure "Israeli (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c204_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Jordanian (male)

Measure "Jordanian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c205_m'
    );
```

Measure "Jordanian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c205_m'
    );
```

Measure "Jordanian (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c205_m',
      'denominator'
    );
```

Measure "Jordanian (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c205_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Kazakh (male)

Measure "Kazakh (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c206_m'
    );
```

Measure "Kazakh (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c206_m'
    );
```

Measure "Kazakh (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c206_m',
      'denominator'
    );
```

Measure "Kazakh (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c206_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Kurd (male)

Measure "Kurd (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_nhs.t006c207_m'
  );
```

Measure "Kurd (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c207_m'
    );
```

Measure "Kurd (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c207_m',
      'denominator'
    );
```

Measure "Kurd (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c207_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Kuwaiti (male)

Measure "Kuwaiti (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c208_m'
    );
```

Measure "Kuwaiti (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c208_m'
    );
```

Measure "Kuwaiti (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_nhs.t006c208_m',
    'denominator'
  );
```

Measure "Kuwaiti (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c208_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Lebanese (male)

Measure "Lebanese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c209_m'
    );
```

Measure "Lebanese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c209_m'
    );
```

Measure "Lebanese (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c209_m',
      'denominator'
    );
```

Measure "Lebanese (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c209_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Palestinian (male)

Measure "Palestinian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c210_m'
    );
```

Measure "Palestinian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c210_m'
    );
```

Measure "Palestinian (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c210_m',
      'denominator'
    );
```

Measure "Palestinian (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c210_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Pashtun (male)

Measure "Pashtun (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c211_m'
    );
```

Measure "Pashtun (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c211_m'
    );
```

Measure "Pashtun (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c211_m',
      'denominator'
    );
```

Measure "Pashtun (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c211_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Saudi Arabian (male)

Measure "Saudi Arabian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c212_m'
    );
```

Measure "Saudi Arabian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c212_m'
    );
```

Measure "Saudi Arabian (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c212_m',
      'denominator'
    );
```

Measure "Saudi Arabian (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
```

```
    'ca.statcan.cols_nhs.t006c212_m',
    'denominator'
  );
```

denominator: West Central Asian and Middle Eastern origins (male)

Syrian (male)

Measure "Syrian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c213_m'
    );
```

Measure "Syrian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c213_m'
    );
```

Measure "Syrian (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c213_m',
      'denominator'
    );
```

Measure "Syrian (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c213_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Tajik (male)

Measure "Tajik (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c214_m'
    );
```

Measure "Tajik (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c214_m'
    );
```

Measure "Tajik (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c214_m',
      'denominator'
    );
```

Measure "Tajik (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c214_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Tatar (male)

Measure "Tatar (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c215_m'
    );
```

Measure "Tatar (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c215_m'
    );
```

Measure "Tatar (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c215_m',
      'denominator'
    );
```

Measure "Tatar (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c215_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Turk (male)

Measure "Turk (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c216_m'
    );
```

Measure "Turk (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c216_m'
    );
```

Measure "Turk (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c216_m',
      'denominator'
    );
```

Measure "Turk (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c216_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Uighur (male)

Measure "Uighur (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c217_m'
    );
```

Measure "Uighur (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c217_m'
    );
```

Measure "Uighur (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c217_m',
      'denominator'
    );
```

Measure "Uighur (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c217_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Uzbek (male)

Measure "Uzbek (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c218_m'
    );
```

Measure "Uzbek (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c218_m'
    );
```

Measure "Uzbek (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c218_m',
      'denominator'
    );
```

Measure "Uzbek (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c218_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

West Central Asian and Middle Eastern origins, n.i.e. (male)

Measure "West Central Asian and Middle Eastern origins, n.i.e. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c220_m'
    );
```

Measure "West Central Asian and Middle Eastern origins, n.i.e. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c220_m'
    );
```

Measure "West Central Asian and Middle Eastern origins, n.i.e. (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c220_m',
      'denominator'
    );
```

Measure "West Central Asian and Middle Eastern origins, n.i.e. (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c220_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Yemeni (male)

Measure "Yemeni (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c219_m'
    );
```

Measure "Yemeni (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c219_m'
    );
```

Measure "Yemeni (male)" percent of "West Central Asian and Middle Eastern origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c219_m',
      'denominator'
    );
```

Measure "Yemeni (male)" percent of "West Central Asian and Middle Eastern origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c219_m',
      'denominator'
    );
```

denominator: West Central Asian and Middle Eastern origins (male)

Caribbean origins (female)

Measure "Caribbean origins (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c087_f'
    );
```

Measure "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c087_f'
    );
```

Measure "Caribbean origins (female)" percent of "Total number of persons in private households (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c087_f',
      'denominator'
    );
```

Measure "Caribbean origins (female)" percent of "Total number of persons in private households (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c087_f',
      'denominator'
    );
```

denominator: Total number of persons in private households (female)

Antiguan (female)

Measure "Antiguan (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c088_f'
    );
```

Measure "Antiguan (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c088_f'
    );
```

Measure "Antiguan (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c088_f',
      'denominator'
    );
```

Measure "Antiguan (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c088_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Bahamian (female)

Measure "Bahamian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c089_f'
    );
```

Measure "Bahamian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c089_f'
    );
```

Measure "Bahamian (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c089_f',
      'denominator'
    );
```

Measure "Bahamian (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c089_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Barbadian (female)

Measure "Barbadian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c090_f'
    );
```

Measure "Barbadian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c090_f'
    );
```

Measure "Barbadian (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =

      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c090_f',
      'denominator'
    );
```

Measure "Barbadian (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c090_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Bermudan (female)

Measure "Bermudan (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c091_f'
    );
```

Measure "Bermudan (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c091_f'
    );
```

Measure "Bermudan (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c091_f',
      'denominator'
    );
```

Measure "Bermudan (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c091_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Carib (female)

Measure "Carib (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c092_f'
    );
```

Measure "Carib (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c092_f'
    );
```

Measure "Carib (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c092_f',
      'denominator'
    );
```

Measure "Carib (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c092_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Caribbean origins, n.i.e. (female)

Measure "Caribbean origins, n.i.e. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c106_f'
    );
```

Measure "Caribbean origins, n.i.e. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c106_f'
    );
```

Measure "Caribbean origins, n.i.e. (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c106_f',
      'denominator'
    );
```

Measure "Caribbean origins, n.i.e. (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c106_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Cuban (female)

Measure "Cuban (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c093_f'
    );
```

Measure "Cuban (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c093_f'
    );
```

Measure "Cuban (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c093_f',
      'denominator'
    );
```

Measure "Cuban (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c093_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Dominican (female)

Measure "Dominican (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c094_f'
    );
```

Measure "Dominican (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c094_f'
    );
```

Measure "Dominican (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c094_f',
      'denominator'
    );
```

Measure "Dominican (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c094_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Grenadian (female)

Measure "Grenadian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c095_f'
    );
```

Measure "Grenadian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c095_f'
    );
```

Measure "Grenadian (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c095_f',
      'denominator'
    );
```

Measure "Grenadian (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c095_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Haitian (female)

Measure "Haitian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c096_f'
    );
```

Measure "Haitian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c096_f'
    );
```

Measure "Haitian (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c096_f',
      'denominator'
    );
```

Measure "Haitian (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c096_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Jamaican (female)

Measure "Jamaican (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c097_f'
    );
```

Measure "Jamaican (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c097_f'
    );
```

Measure "Jamaican (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c097_f',
      'denominator'
    );
```

Measure "Jamaican (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c097_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Kittitian/Nevisian (female)

Measure "Kittitian/Nevisian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c098_f'
    );
```

Measure "Kittitian/Nevisian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c098_f'
    );
```

Measure "Kittitian/Nevisian (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c098_f',
      'denominator'
    );
```

Measure "Kittitian/Nevisian (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c098_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Martinican (female)

Measure "Martinican (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c099_f'
    );
```

Measure "Martinican (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c099_f'
    );
```

Measure "Martinican (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c099_f',
      'denominator'
    );
```

Measure "Martinican (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c099_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Montserratan (female)

Measure "Montserratan (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c100_f'
    );
```

Measure "Montserratan (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c100_f'
    );
```

Measure "Montserratan (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c100_f',
      'denominator'
    );
```

Measure "Montserratan (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c100_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Puerto Rican (female)

Measure "Puerto Rican (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c101_f'
    );
```

Measure "Puerto Rican (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c101_f'
    );
```

Measure "Puerto Rican (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c101_f',
      'denominator'
    );
```

Measure "Puerto Rican (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c101_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

St. Lucian (female)

Measure "St. Lucian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c102_f'
    );
```

Measure "St. Lucian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c102_f'
    );
```

Measure "St. Lucian (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c102_f',
      'denominator'
    );
```

Measure "St. Lucian (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c102_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Trinidadian/Tobagonian (female)

Measure "Trinidadian/Tobagonian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c103_f'
    );
```

Measure "Trinidadian/Tobagonian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c103_f'
    );
```

Measure "Trinidadian/Tobagonian (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c103_f',
      'denominator'
    );
```

Measure "Trinidadian/Tobagonian (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c103_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Vincentian/Grenadinian (female)

Measure "Vincentian/Grenadinian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c104_f'
    );
```

Measure "Vincentian/Grenadinian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c104_f'
    );
```

Measure "Vincentian/Grenadinian (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c104_f',
      'denominator'
    );
```

Measure "Vincentian/Grenadinian (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c104_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

West Indian, n.o.s. (female)

Measure "West Indian, n.o.s. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c105_f'
    );
```

Measure "West Indian, n.o.s. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c105_f'
    );
```

Measure "West Indian, n.o.s. (female)" percent of "Caribbean origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c105_f',
      'denominator'
    );
```

Measure "West Indian, n.o.s. (female)" percent of "Caribbean origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c105_f',
      'denominator'
    );
```

denominator: Caribbean origins (female)

Caribbean origins (male)

Measure "Caribbean origins (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c087_m'
    );
```

Measure "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c087_m'
    );
```

Measure "Caribbean origins (male)" percent of "Total number of persons in private households (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c087_m',
      'denominator'
    );
```

Measure "Caribbean origins (male)" percent of "Total number of persons in private households (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c087_m',
      'denominator'
    );
```

denominator: Total number of persons in private households (male)

Antiguan (male) 2164

Bahamian (male) 2165

      'denominator'
    );
```

Measure "Bermudan (male)" percent of "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c091_m',
      'denominator'
    );
```

denominator: Caribbean origins (male)

Carib (male)

Measure "Carib (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c092_m'
    );
```

Measure "Carib (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c092_m'
    );
```

Measure "Carib (male)" percent of "Caribbean origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c092_m',
      'denominator'
    );
```

Measure "Carib (male)" percent of "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c092_m',
      'denominator'
    );
```

denominator: Caribbean origins (male)

Caribbean origins, n.i.e. (male)

Measure "Caribbean origins, n.i.e. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c106_m'
    );
```

Measure "Caribbean origins, n.i.e. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c106_m'
    );
```

Measure "Caribbean origins, n.i.e. (male)" percent of "Caribbean origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c106_m',
      'denominator'
    );
```

Measure "Caribbean origins, n.i.e. (male)" percent of "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c106_m',
      'denominator'
    );
```

denominator: Caribbean origins (male)

Cuban (male)

Measure "Cuban (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c093_m'
    );
```

Measure "Cuban (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c093_m'
    );
```

Measure "Cuban (male)" percent of "Caribbean origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c093_m',
      'denominator'
    );
```

Measure "Cuban (male)" percent of "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c093_m',
      'denominator'
    );
```

denominator: Caribbean origins (male)

Dominican (male)

Measure "Dominican (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c094_m'
    );
```

Measure "Dominican (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c094_m'
    );
```

Measure "Dominican (male)" percent of "Caribbean origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
     'ca.statcan.cols_nhs.t006c094_m',
     'denominator'
    );
```

Measure "Dominican (male)" percent of "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
     'ca.statcan.cols_nhs.t006c094_m',
     'denominator'
    );
```

denominator: Caribbean origins (male)

Grenadian (male)

Measure "Grenadian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
     'ca.statcan.cols_nhs.t006c095_m'
    );
```

Measure "Grenadian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
     'ca.statcan.cols_nhs.t006c095_m'
    );
```

Measure "Grenadian (male)" percent of "Caribbean origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
     'ca.statcan.cols_nhs.t006c095_m',
     'denominator'
    );
```

Measure "Grenadian (male)" percent of "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
     'ca.statcan.cols_nhs.t006c095_m',
     'denominator'
    );
```

denominator: Caribbean origins (male)

Haitian (male)

Measure "Haitian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c096_m'
    );
```

Measure "Haitian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c096_m'
    );
```

Measure "Haitian (male)" percent of "Caribbean origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c096_m',
      'denominator'
    );
```

Measure "Haitian (male)" percent of "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c096_m',
      'denominator'
    );
```

denominator: Caribbean origins (male)

Jamaican (male)

Measure "Jamaican (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c097_m'
    );
```

Measure "Jamaican (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c097_m'
    );
```

Measure "Jamaican (male)" percent of "Caribbean origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
     'ca.statcan.cols_nhs.t006c097_m',
     'denominator'
    );
```

Measure "Jamaican (male)" percent of "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
     'ca.statcan.cols_nhs.t006c097_m',
     'denominator'
    );
```

denominator: Caribbean origins (male)

Kittitian/Nevisian (male)

Measure "Kittitian/Nevisian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
     'ca.statcan.cols_nhs.t006c098_m'
    );
```

Measure "Kittitian/Nevisian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
     'ca.statcan.cols_nhs.t006c098_m'
    );
```

Measure "Kittitian/Nevisian (male)" percent of "Caribbean origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
     'ca.statcan.cols_nhs.t006c098_m',
     'denominator'
    );
```

Measure "Kittitian/Nevisian (male)" percent of "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
     'ca.statcan.cols_nhs.t006c098_m',
     'denominator'
    );
```

denominator: Caribbean origins (male)

Martinican (male)

Measure "Martinican (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c099_m'
    );
```

Measure "Martinican (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c099_m'
    );
```

Measure "Martinican (male)" percent of "Caribbean origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c099_m',
      'denominator'
    );
```

Measure "Martinican (male)" percent of "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c099_m',
      'denominator'
    );
```

denominator: Caribbean origins (male)

Montserratan (male)

Measure "Montserratan (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c100_m'
    );
```

Measure "Montserratan (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c100_m'
    );
```

Measure "Montserratan (male)" percent of "Caribbean origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c100_m',
      'denominator'
    );
```

Measure "Montserratan (male)" percent of "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c100_m',
      'denominator'
    );
```

denominator: Caribbean origins (male)

Puerto Rican (male)

Measure "Puerto Rican (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c101_m'
    );
```

Measure "Puerto Rican (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c101_m'
    );
```

Measure "Puerto Rican (male)" percent of "Caribbean origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c101_m',
      'denominator'
    );
```

Measure "Puerto Rican (male)" percent of "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c101_m',
      'denominator'
    );
```

denominator: Caribbean origins (male)

St. Lucian (male)

Measure "St. Lucian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c102_m'
    );
```

Measure "St. Lucian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c102_m'
    );
```

Measure "St. Lucian (male)" percent of "Caribbean origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c102_m',
      'denominator'
    );
```

Measure "St. Lucian (male)" percent of "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c102_m',
      'denominator'
    );
```

denominator: Caribbean origins (male)

Trinidadian/Tobagonian (male)

Measure "Trinidadian/Tobagonian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c103_m'
    );
```

Measure "Trinidadian/Tobagonian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c103_m'
    );
```

Measure "Trinidadian/Tobagonian (male)" percent of "Caribbean origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
     'ca.statcan.cols_nhs.t006c103_m',
     'denominator'
    );
```

Measure "Trinidadian/Tobagonian (male)" percent of "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
     'ca.statcan.cols_nhs.t006c103_m',
     'denominator'
    );
```

denominator: Caribbean origins (male)

Vincentian/Grenadinian (male)

Measure "Vincentian/Grenadinian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
     'ca.statcan.cols_nhs.t006c104_m'
    );
```

Measure "Vincentian/Grenadinian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
     'ca.statcan.cols_nhs.t006c104_m'
    );
```

Measure "Vincentian/Grenadinian (male)" percent of "Caribbean origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
     'ca.statcan.cols_nhs.t006c104_m',
     'denominator'
    );
```

Measure "Vincentian/Grenadinian (male)" percent of "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
     'ca.statcan.cols_nhs.t006c104_m',
     'denominator'
    );
```

denominator: Caribbean origins (male)

West Indian, n.o.s. (male)

Measure "West Indian, n.o.s. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c105_m'
    );
```

Measure "West Indian, n.o.s. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c105_m'
    );
```

Measure "West Indian, n.o.s. (male)" percent of "Caribbean origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c105_m',
      'denominator'
    );
```

Measure "West Indian, n.o.s. (male)" percent of "Caribbean origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c105_m',
      'denominator'
    );
```

denominator: Caribbean origins (male)

European origins (female)

Measure "European origins (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c016_f'
    );
```

Measure "European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c016_f'
    );
```

Measure "European origins (female)" percent of "Total number of persons in private households (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c016_f',
      'denominator'
    );
```

Measure "European origins (female)" percent of "Total number of persons in private households (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c016_f',
      'denominator'
    );
```

      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c025_f',
      'denominator'
    );
```

denominator: British Isles origins (female)

Channel Islander (female)

Measure "Channel Islander (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c018_f'
    );
```

Measure "Channel Islander (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c018_f'
    );
```

Measure "Channel Islander (female)" percent of "British Isles origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c018_f',
      'denominator'
    );
```

Measure "Channel Islander (female)" percent of "British Isles origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c018_f',
      'denominator'
    );
```

denominator: British Isles origins (female)

Cornish (female)

Measure "Cornish (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
```

```
    'ca.statcan.cols_nhs.t006c019_f'
  );
```

Measure "Cornish (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c019_f'
    );
```

Measure "Cornish (female)" percent of "British Isles origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c019_f',
      'denominator'
    );
```

Measure "Cornish (female)" percent of "British Isles origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c019_f',
      'denominator'
    );
```

denominator: British Isles origins (female)

English (female)

Measure "English (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c020_f'
    );
```

Measure "English (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c020_f'
    );
```

Measure "English (female)" percent of "British Isles origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c020_f',
      'denominator'
    );
```

Measure "English (female)" percent of "British Isles origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c020_f',
      'denominator'
    );
```

denominator: British Isles origins (female)

Irish (female)

Measure "Irish (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c021_f'
    );
```

Measure "Irish (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c021_f'
    );
```

Measure "Irish (female)" percent of "British Isles origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c021_f',
      'denominator'
    );
```

Measure "Irish (female)" percent of "British Isles origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c021_f',
      'denominator'
    );
```

denominator: British Isles origins (female)

Manx (female)

Measure "Manx (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
```

```
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_nhs.t006c022_f'
  );
```

Measure "Manx (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c022_f'
    );
```

Measure "Manx (female)" percent of "British Isles origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c022_f',
      'denominator'
    );
```

Measure "Manx (female)" percent of "British Isles origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c022_f',
      'denominator'
    );
```

denominator: British Isles origins (female)

Scottish (female)

Measure "Scottish (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c023_f'
    );
```

Measure "Scottish (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c023_f'
    );
```

Measure "Scottish (female)" percent of "British Isles origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c023_f',
```

```
    'denominator'
  );
```

Measure "Scottish (female)" percent of "British Isles origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c023_f',
      'denominator'
    );
```

denominator: British Isles origins (female)

Welsh (female)

Measure "Welsh (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c024_f'
    );
```

Measure "Welsh (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c024_f'
    );
```

Measure "Welsh (female)" percent of "British Isles origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c024_f',
      'denominator'
    );
```

Measure "Welsh (female)" percent of "British Isles origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c024_f',
      'denominator'
    );
```

denominator: British Isles origins (female)

Eastern European origins (female)

Measure "Eastern European origins (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c047_f'
    );
```

Measure "Eastern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c047_f'
    );
```

Measure "Eastern European origins (female)" percent of "European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c047_f',
      'denominator'
    );
```

Measure "Eastern European origins (female)" percent of "European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c047_f',
      'denominator'
    );
```

denominator: European origins (female)

```

denominator: Eastern European origins (female)

Estonian (female)

Measure "Estonian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c052_f'
    );
```

Measure "Estonian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c052_f'
    );
```

Measure "Estonian (female)" percent of "Eastern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c052_f',
      'denominator'
    );
```

Measure "Estonian (female)" percent of "Eastern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c052_f',
      'denominator'
    );
```

denominator: Eastern European origins (female)

Hungarian (female)

Measure "Hungarian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c053_f'
    );
```

Measure "Hungarian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c053_f'
    );
```

Measure "Hungarian (female)" percent of "Eastern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c053_f',
      'denominator'
    );
```

Measure "Hungarian (female)" percent of "Eastern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c053_f',
      'denominator'
    );
```

denominator: Eastern European origins (female)

Latvian (female)

Measure "Latvian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c054_f'
    );
```

Measure "Latvian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
```

```
    'ca.statcan.cols_nhs.t006c054_f'
  );
```

Measure "Latvian (female)" percent of "Eastern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c054_f',
      'denominator'
    );
```

Measure "Latvian (female)" percent of "Eastern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c054_f',
      'denominator'
    );
```

denominator: Eastern European origins (female)

Lithuanian (female)

Measure "Lithuanian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c055_f'
    );
```

Measure "Lithuanian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c055_f'
    );
```

Measure "Lithuanian (female)" percent of "Eastern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c055_f',
      'denominator'
    );
```

Measure "Lithuanian (female)" percent of "Eastern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c055_f',
```

```
    'denominator'
  );
```

denominator: Eastern European origins (female)

Moldovan (female)

Measure "Moldovan (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c056_f'
    );
```

Measure "Moldovan (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c056_f'
    );
```

Measure "Moldovan (female)" percent of "Eastern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c056_f',
      'denominator'
    );
```

Measure "Moldovan (female)" percent of "Eastern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c056_f',
      'denominator'
    );
```

denominator: Eastern European origins (female)

Polish (female)

Measure "Polish (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c057_f'
    );
```

Measure "Polish (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c057_f'
    );
```

Measure "Polish (female)" percent of "Eastern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c057_f',
      'denominator'
    );
```

Measure "Polish (female)" percent of "Eastern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c057_f',
      'denominator'
    );
```

denominator: Eastern European origins (female)

Romanian (female)

Measure "Romanian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c058_f'
    );
```

Measure "Romanian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c058_f'
    );
```

Measure "Romanian (female)" percent of "Eastern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c058_f',
      'denominator'
    );
```

Measure "Romanian (female)" percent of "Eastern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
    'ca.statcan.cols_nhs.t006c058_f',
    'denominator'
  );
```

denominator: Eastern European origins (female)

Russian (female)

Measure "Russian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c059_f'
    );
```

Measure "Russian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c059_f'
    );
```

Measure "Russian (female)" percent of "Eastern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c059_f',
      'denominator'
    );
```

Measure "Russian (female)" percent of "Eastern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c059_f',
      'denominator'
    );
```

denominator: Eastern European origins (female)

Slovak (female)

Measure "Slovak (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c060_f'
    );
```

Measure "Slovak (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c060_f'
    );
```

Measure "Slovak (female)" percent of "Eastern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c060_f',
      'denominator'
    );
```

Measure "Slovak (female)" percent of "Eastern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c060_f',
      'denominator'
    );
```

denominator: Eastern European origins (female)

Ukrainian (female)

Measure "Ukrainian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c061_f'
    );
```

Measure "Ukrainian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c061_f'
    );
```

Measure "Ukrainian (female)" percent of "Eastern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c061_f',
      'denominator'
    );
```

Measure "Ukrainian (female)" percent of "Eastern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c061_f',
      'denominator'
    );
```

denominator: Eastern European origins (female)

French origins (female)

Measure "French origins (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c026_f'
    );
```

Measure "French origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c026_f'
    );
```

Measure "French origins (female)" percent of "European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c026_f',
      'denominator'
    );
```

Measure "French origins (female)" percent of "European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c026_f',
      'denominator'
    );
```

denominator: European origins (female)

Alsatian (female) 2196

Breton (female) 2197

French (female) 2198

      'denominator'
    );
```

Measure "Italian (female)" percent of "Southern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c069_f',
      'denominator'
    );
```

denominator: Southern European origins (female)

Kosovar (female)

Measure "Kosovar (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c070_f'
    );
```

Measure "Kosovar (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c070_f'
    );
```

Measure "Kosovar (female)" percent of "Southern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c070_f',
      'denominator'
    );
```

Measure "Kosovar (female)" percent of "Southern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c070_f',
      'denominator'
    );
```

denominator: Southern European origins (female)

Macedonian (female)

Measure "Macedonian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c071_f'
    );
```

Measure "Macedonian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c071_f'
    );
```

Measure "Macedonian (female)" percent of "Southern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c071_f',
      'denominator'
    );
```

Measure "Macedonian (female)" percent of "Southern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c071_f',
      'denominator'
    );
```

denominator: Southern European origins (female)

Maltese (female)

Measure "Maltese (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
```

```
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_nhs.t006c072_f'
  );
```

Measure "Maltese (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c072_f'
    );
```

Measure "Maltese (female)" percent of "Southern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c072_f',
      'denominator'
    );
```

Measure "Maltese (female)" percent of "Southern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c072_f',
      'denominator'
    );
```

denominator: Southern European origins (female)

Montenegrin (female)

Measure "Montenegrin (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c073_f'
    );
```

Measure "Montenegrin (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c073_f'
    );
```

Measure "Montenegrin (female)" percent of "Southern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c073_f',
```

```
    'denominator'
  );
```

Measure "Montenegrin (female)" percent of "Southern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c073_f',
      'denominator'
    );
```

denominator: Southern European origins (female)

Portuguese (female)

Measure "Portuguese (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c074_f'
    );
```

Measure "Portuguese (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c074_f'
    );
```

Measure "Portuguese (female)" percent of "Southern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c074_f',
      'denominator'
    );
```

Measure "Portuguese (female)" percent of "Southern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c074_f',
      'denominator'
    );
```

denominator: Southern European origins (female)

Serbian (female)

Measure "Serbian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c075_f'
    );
```

Measure "Serbian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c075_f'
    );
```

Measure "Serbian (female)" percent of "Southern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c075_f',
      'denominator'
    );
```

Measure "Serbian (female)" percent of "Southern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c075_f',
      'denominator'
    );
```

denominator: Southern European origins (female)

Sicilian (female)

Measure "Sicilian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c076_f'
    );
```

Measure "Sicilian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c076_f'
    );
```

Measure "Sicilian (female)" percent of "Southern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
```

```
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_nhs.t006c076_f',
    'denominator'
  );
```

Measure "Sicilian (female)" percent of "Southern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c076_f',
      'denominator'
    );
```

denominator: Southern European origins (female)

Slovenian (female)

Measure "Slovenian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c077_f'
    );
```

Measure "Slovenian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c077_f'
    );
```

Measure "Slovenian (female)" percent of "Southern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c077_f',
      'denominator'
    );
```

Measure "Slovenian (female)" percent of "Southern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c077_f',
      'denominator'
    );
```

denominator: Southern European origins (female)

Southern European origins, n.i.e. (female)

Measure "Southern European origins, n.i.e. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c080_f'
    );
```

Measure "Southern European origins, n.i.e. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c080_f'
    );
```

Measure "Southern European origins, n.i.e. (female)" percent of "Southern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c080_f',
      'denominator'
    );
```

Measure "Southern European origins, n.i.e. (female)" percent of "Southern European origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c080_f',
      'denominator'
    );
```

denominator: Southern European origins (female)

Spanish (female)

Measure "Spanish (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c078_f'
    );
```

Measure "Spanish (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c078_f'
    );
```

Measure "Spanish (female)" percent of "Southern European origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(

    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c034_f'
    );
```

Measure "Flemish (female)" percent of "Western European origins (except French origins) (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c034_f',
      'denominator'
    );
```

Measure "Flemish (female)" percent of "Western European origins (except French origins) (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c034_f',
      'denominator'
    );
```

denominator: Western European origins (except French origins) (female)

Frisian (female)

Measure "Frisian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c035_f'
    );
```

Measure "Frisian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c035_f'
    );
```

Measure "Frisian (female)" percent of "Western European origins (except French origins) (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c035_f',
      'denominator'
    );
```

Measure "Frisian (female)" percent of "Western European origins (except French origins) (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c035_f',
      'denominator'
    );
```

denominator: Western European origins (except French origins) (female)

German (female)

Measure "German (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c036_f'
    );
```

Measure "German (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c036_f'
    );
```

Measure "German (female)" percent of "Western European origins (except French origins) (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c036_f',
      'denominator'
    );
```

Measure "German (female)" percent of "Western European origins (except French origins) (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c036_f',
      'denominator'
    );
```

denominator: Western European origins (except French origins) (female)

Luxembourger (female)

Measure "Luxembourger (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c037_f'
    );
```

Measure "Luxembourger (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c037_f'
    );
```

Measure "Luxembourger (female)" percent of "Western European origins (except French origins) (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c037_f',
      'denominator'
    );
```

Measure "Luxembourger (female)" percent of "Western European origins (except French origins) (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c037_f',
      'denominator'
    );
```

denominator: Western European origins (except French origins) (female)

Swiss (female)

Measure "Swiss (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c038_f'
    );
```

Measure "Swiss (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c038_f'
    );
```

Measure "Swiss (female)" percent of "Western European origins (except French origins) (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c038_f',
      'denominator'
    );
```

Measure "Swiss (female)" percent of "Western European origins (except French origins) (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c038_f',
      'denominator'
    );
```

denominator: Western European origins (except French origins) (female)

Western European origins, n.i.e. (female)

Measure "Western European origins, n.i.e. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c039_f'
    );
```

Measure "Western European origins, n.i.e. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c039_f'
    );
```

Measure "Western European origins, n.i.e. (female)" percent of "Western European origins (except French origins) (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c039_f',
      'denominator'
    );
```

Measure "Western European origins, n.i.e. (female)" percent of "Western European origins (except French origins) (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c039_f',
      'denominator'
    );
```

denominator: Western European origins (except French origins) (female)

European origins (male)

Measure "European origins (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c016_m'
    );
```

Measure "European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c016_m'
    );
```

Measure "European origins (male)" percent of "Total number of persons in private households (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c016_m',
      'denominator'
    );
```

Measure "European origins (male)" percent of "Total number of persons in private households (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c016_m',
      'denominator'
    );
```

denominator: Total number of persons in private households (male)

British Isles origins (male) 2229

Eastern European origins (male) 2235

French origins (male) 2246

Northern European origins (except British Isles origins) (male) 2249

Other European origins (male) 2254

Southern European origins (male) 2259

  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c024_m',
      'denominator'
    );
```

denominator: British Isles origins (male)

Eastern European origins (male)

Measure "Eastern European origins (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c047_m'
    );
```

Measure "Eastern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c047_m'
    );
```

Measure "Eastern European origins (male)" percent of "European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c047_m',
      'denominator'
    );
```

Measure "Eastern European origins (male)" percent of "European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c047_m',
      'denominator'
    );
```

      'denominator'
    );
```

denominator: Eastern European origins (male)

Eastern European origins, n.i.e. (male)

Measure "Eastern European origins, n.i.e. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c062_m'
    );
```

Measure "Eastern European origins, n.i.e. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c062_m'
    );
```

Measure "Eastern European origins, n.i.e. (male)" percent of "Eastern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c062_m',
      'denominator'
    );
```

Measure "Eastern European origins, n.i.e. (male)" percent of "Eastern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c062_m',
      'denominator'
    );
```

denominator: Eastern European origins (male)

Estonian (male)

Measure "Estonian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c052_m'
    );
```

Measure "Estonian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c052_m'
    );
```

Measure "Estonian (male)" percent of "Eastern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c052_m',
      'denominator'
    );
```

Measure "Estonian (male)" percent of "Eastern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c052_m',
      'denominator'
    );
```

denominator: Eastern European origins (male)

Hungarian (male)

Measure "Hungarian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c053_m'
    );
```

Measure "Hungarian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
```

```
    'ca.statcan.cols_nhs.t006c053_m'
  );
```

Measure "Hungarian (male)" percent of "Eastern European origins (male)" at one point:

```

      'ca.statcan.cols_nhs.t006c054_m',
      'denominator'
    );
```

Measure "Latvian (male)" percent of "Eastern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c054_m',
```

```
    'denominator'
  );
```

denominator: Eastern European origins (male)

Lithuanian (male)

Measure "Lithuanian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c055_m'
    );
```

Measure "Lithuanian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c055_m'
    );
```

Measure "Lithuanian (male)" percent of "Eastern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c055_m',
      'denominator'
    );
```

Measure "Lithuanian (male)" percent of "Eastern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c055_m',
      'denominator'
    );
```

denominator: Eastern European origins (male)

Moldovan (male)

Measure "Moldovan (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c056_m'
    );
```

Measure "Moldovan (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c056_m'
    );
```

Measure "Moldovan (male)" percent of "Eastern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c056_m',
      'denominator'
    );
```

Measure "Moldovan (male)" percent of "Eastern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c056_m',
      'denominator'
    );
```

denominator: Eastern European origins (male)

Polish (male)

Measure "Polish (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c057_m'
    );
```

Measure "Polish (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c057_m'
    );
```

Measure "Polish (male)" percent of "Eastern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =

      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c057_m',
      'denominator'
    );
```

Measure "Polish (male)" percent of "Eastern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
```

```
  OBS_GetMeasure(
    ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
    'ca.statcan.cols_nhs.t006c057_m',
    'denominator'
  );
```

denominator: Eastern European origins (male)

Romanian (male)

Measure "Romanian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c058_m'
    );
```

Measure "Romanian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c058_m'
    );
```

Measure "Romanian (male)" percent of "Eastern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c058_m',
      'denominator'
    );
```

Measure "Romanian (male)" percent of "Eastern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c058_m',
      'denominator'
    );
```

denominator: Eastern European origins (male)

Russian (male)

Measure "Russian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c059_m'
    );
```

Measure "Russian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c059_m'
    );
```

Measure "Russian (male)" percent of "Eastern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c059_m',
      'denominator'
    );
```

Measure "Russian (male)" percent of "Eastern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c059_m',
      'denominator'
    );
```

denominator: Eastern European origins (male)

Slovak (male)

Measure "Slovak (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c060_m'
    );
```

Measure "Slovak (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c060_m'
    );
```

Measure "Slovak (male)" percent of "Eastern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c060_m',
      'denominator'
    );
```

Measure "Slovak (male)" percent of "Eastern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c060_m',
      'denominator'
    );
```

denominator: Eastern European origins (male)

Ukrainian (male)

Measure "Ukrainian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c061_m'
    );
```

Measure "Ukrainian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c061_m'
    );
```

Measure "Ukrainian (male)" percent of "Eastern European origins (male)" at one point:

```

denominator: Other European origins (male)

Roma (Gypsy) (male)

Measure "Roma (Gypsy) (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c084_m'
    );
```

Measure "Roma (Gypsy) (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c084_m'
    );
```

Measure "Roma (Gypsy) (male)" percent of "Other European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c084_m',
      'denominator'
    );
```

Measure "Roma (Gypsy) (male)" percent of "Other European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c084_m',
      'denominator'
    );
```

denominator: Other European origins (male)

Slavic, n.o.s. (male)

Measure "Slavic, n.o.s. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c085_m'
    );
```

Measure "Slavic, n.o.s. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c085_m'
    );
```

Measure "Slavic, n.o.s. (male)" percent of "Other European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c085_m',
      'denominator'
    );
```

Measure "Slavic, n.o.s. (male)" percent of "Other European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c085_m',
      'denominator'
    );
```

denominator: Other European origins (male)

Southern European origins (male)

Measure "Southern European origins (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c063_m'
    );
```

Measure "Southern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c063_m'
    );
```

Measure "Southern European origins (male)" percent of "European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c063_m',
      'denominator'
    );
```

Measure "Southern European origins (male)" percent of "European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c063_m',
      'denominator'
    );
```

      'ca.statcan.cols_nhs.t006c067_m',
      'denominator'
    );
```

Measure "Cypriot (male)" percent of "Southern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c067_m',
      'denominator'
    );
```

denominator: Southern European origins (male)

Greek (male)

Measure "Greek (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c068_m'
    );
```

Measure "Greek (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c068_m'
    );
```

Measure "Greek (male)" percent of "Southern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c068_m',
      'denominator'
    );
```

Measure "Greek (male)" percent of "Southern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c068_m',
      'denominator'
    );
```

denominator: Southern European origins (male)

Italian (male)

Measure "Italian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c069_m'
    );
```

Measure "Italian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c069_m'
    );
```

Measure "Italian (male)" percent of "Southern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c069_m',
      'denominator'
    );
```

Measure "Italian (male)" percent of "Southern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c069_m',
      'denominator'
    );
```

denominator: Southern European origins (male)

Kosovar (male)

Measure "Kosovar (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c070_m'
    );
```

Measure "Kosovar (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c070_m'
    );
```

Measure "Kosovar (male)" percent of "Southern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c070_m',
      'denominator'
    );
```

Measure "Kosovar (male)" percent of "Southern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c070_m',
      'denominator'
    );
```

denominator: Southern European origins (male)

Macedonian (male)

Measure "Macedonian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
```

```
    'ca.statcan.cols_nhs.t006c071_m'
  );
```

Measure "Macedonian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c071_m'
    );
```

Measure "Macedonian (male)" percent of "Southern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c071_m',
      'denominator'
    );
```

Measure "Macedonian (male)" percent of "Southern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c071_m',
      'denominator'
    );
```

denominator: Southern European origins (male)

Maltese (male)

Measure "Maltese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c072_m'
    );
```

Measure "Maltese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c072_m'
    );
```

Measure "Maltese (male)" percent of "Southern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c072_m',
      'denominator'
    );
```

Measure "Maltese (male)" percent of "Southern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c072_m',
      'denominator'
    );
```

denominator: Southern European origins (male)

Montenegrin (male)

Measure "Montenegrin (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c073_m'
    );
```

Measure "Montenegrin (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c073_m'
    );
```

Measure "Montenegrin (male)" percent of "Southern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c073_m',
      'denominator'
    );
```

Measure "Montenegrin (male)" percent of "Southern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c073_m',
      'denominator'
    );
```

denominator: Southern European origins (male)

Portuguese (male)

Measure "Portuguese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
```

```
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_nhs.t006c074_m'
  );
```

Measure "Portuguese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c074_m'
    );
```

Measure "Portuguese (male)" percent of "Southern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c074_m',
      'denominator'
    );
```

Measure "Portuguese (male)" percent of "Southern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c074_m',
      'denominator'
    );
```

denominator: Southern European origins (male)

Serbian (male)

Measure "Serbian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c075_m'
    );
```

Measure "Serbian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c075_m'
    );
```

Measure "Serbian (male)" percent of "Southern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c075_m',
```

```
    'denominator'
  );
```

Measure "Serbian (male)" percent of "Southern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c075_m',
      'denominator'
    );
```

denominator: Southern European origins (male)

Sicilian (male)

Measure "Sicilian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c076_m'
    );
```

Measure "Sicilian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c076_m'
    );
```

Measure "Sicilian (male)" percent of "Southern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c076_m',
      'denominator'
    );
```

Measure "Sicilian (male)" percent of "Southern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c076_m',
      'denominator'
    );
```

denominator: Southern European origins (male)

Slovenian (male)

Measure "Slovenian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c077_m'
    );
```

Measure "Slovenian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c077_m'
    );
```

Measure "Slovenian (male)" percent of "Southern European origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c077_m',
      'denominator'
    );
```

Measure "Slovenian (male)" percent of "Southern European origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c077_m',
      'denominator'
    );
```

denominator: Southern European origins (male)

Southern European origins, n.i.e. (male)

Measure "Southern European origins, n.i.e. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),

Aboriginal from Central/South America (except Maya) (female)

Measure "Aboriginal from Central/South America (except Maya) (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c108_f'
    );
```

Measure "Aboriginal from Central/South America (except Maya) (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c108_f'
    );
```

Measure "Aboriginal from Central/South America (except Maya) (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c108_f',
      'denominator'
    );
```

Measure "Aboriginal from Central/South America (except Maya) (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c108_f',
```

```
    'denominator'
  );
```

denominator: Latin, Central and South American origins (female)

Argentinian (female)

Measure "Argentinian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c109_f'
    );
```

Measure "Argentinian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c109_f'
    );
```

Measure "Argentinian (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c109_f',
      'denominator'
    );
```

Measure "Argentinian (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c109_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Belizean (female)

Measure "Belizean (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c110_f'
    );
```

Measure "Belizean (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c110_f'
    );
```

Measure "Belizean (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c110_f',
      'denominator'
    );
```

Measure "Belizean (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c110_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Bolivian (female)

Measure "Bolivian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c111_f'
    );
```

Measure "Bolivian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c111_f'
    );
```

Measure "Bolivian (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c111_f',
      'denominator'
    );
```

Measure "Bolivian (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c111_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Brazilian (female)

Measure "Brazilian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c112_f'
    );
```

Measure "Brazilian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c112_f'
    );
```

Measure "Brazilian (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c112_f',
      'denominator'
    );
```

Measure "Brazilian (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c112_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Chilean (female)

Measure "Chilean (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c113_f'
    );
```

Measure "Chilean (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c113_f'
    );
```

Measure "Chilean (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c113_f',
      'denominator'
    );
```

Measure "Chilean (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c113_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Colombian (female)

Measure "Colombian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c114_f'
    );
```

Measure "Colombian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c114_f'
    );
```

Measure "Colombian (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c114_f',
      'denominator'
    );
```

Measure "Colombian (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c114_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Costa Rican (female)

Measure "Costa Rican (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c115_f'
    );
```

Measure "Costa Rican (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c115_f'
    );
```

Measure "Costa Rican (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c115_f',
      'denominator'
    );
```

Measure "Costa Rican (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c115_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Ecuadorian (female)

Measure "Ecuadorian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c116_f'
    );
```

Measure "Ecuadorian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c116_f'
    );
```

Measure "Ecuadorian (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c116_f',
      'denominator'
    );
```

Measure "Ecuadorian (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c116_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Guatemalan (female)

Measure "Guatemalan (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c117_f'
    );
```

Measure "Guatemalan (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c117_f'
    );
```

Measure "Guatemalan (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c117_f',
      'denominator'
    );
```

Measure "Guatemalan (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c117_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Guyanese (female)

Measure "Guyanese (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c118_f'
    );
```

Measure "Guyanese (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c118_f'
    );
```

Measure "Guyanese (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c118_f',
      'denominator'
    );
```

Measure "Guyanese (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c118_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Hispanic (female)

Measure "Hispanic (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c119_f'
    );
```

Measure "Hispanic (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c119_f'
    );
```

Measure "Hispanic (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c119_f',
      'denominator'
    );
```

Measure "Hispanic (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c119_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Honduran (female)

Measure "Honduran (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c120_f'
    );
```

Measure "Honduran (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c120_f'
    );
```

Measure "Honduran (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c120_f',
      'denominator'
    );
```

Measure "Honduran (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c120_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Latin, Central and South American origins, n.i.e. (female)

Measure "Latin, Central and South American origins, n.i.e. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c130_f'
    );
```

Measure "Latin, Central and South American origins, n.i.e. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c130_f'
    );
```

Measure "Latin, Central and South American origins, n.i.e. (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c130_f',
      'denominator'
    );
```

Measure "Latin, Central and South American origins, n.i.e. (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c130_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Maya (female)

Measure "Maya (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c121_f'
    );
```

Measure "Maya (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c121_f'
    );
```

Measure "Maya (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c121_f',
      'denominator'
    );
```

Measure "Maya (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c121_f',
```

```
    'denominator'
  );
```

denominator: Latin, Central and South American origins (female)

Mexican (female)

Measure "Mexican (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c122_f'
    );
```

Measure "Mexican (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c122_f'
    );
```

Measure "Mexican (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c122_f',
      'denominator'
    );
```

Measure "Mexican (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c122_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Nicaraguan (female)

Measure "Nicaraguan (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c123_f'
    );
```

Measure "Nicaraguan (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c123_f'
    );
```

Measure "Nicaraguan (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c123_f',
      'denominator'
    );
```

Measure "Nicaraguan (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c123_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Panamanian (female)

Measure "Panamanian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c124_f'
    );
```

Measure "Panamanian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c124_f'
    );
```

Measure "Panamanian (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c124_f',
      'denominator'
    );
```

Measure "Panamanian (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c124_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Paraguayan (female)

Measure "Paraguayan (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c125_f'
    );
```

Measure "Paraguayan (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c125_f'
    );
```

Measure "Paraguayan (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c125_f',
      'denominator'
    );
```

Measure "Paraguayan (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c125_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Peruvian (female)

Measure "Peruvian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c126_f'
    );
```

Measure "Peruvian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c126_f'
    );
```

Measure "Peruvian (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c126_f',
      'denominator'
    );
```

Measure "Peruvian (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c126_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Salvadorean (female)

Measure "Salvadorean (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c127_f'
    );
```

Measure "Salvadorean (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c127_f'
    );
```

Measure "Salvadorean (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c127_f',
      'denominator'
    );
```

Measure "Salvadorean (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c127_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Uruguayan (female)

Measure "Uruguayan (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c128_f'
    );
```

Measure "Uruguayan (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c128_f'
    );
```

Measure "Uruguayan (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c128_f',
      'denominator'
    );
```

Measure "Uruguayan (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c128_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Venezuelan (female)

Measure "Venezuelan (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c129_f'
    );
```

Measure "Venezuelan (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c129_f'
    );
```

Measure "Venezuelan (female)" percent of "Latin, Central and South American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c129_f',
      'denominator'
    );
```

Measure "Venezuelan (female)" percent of "Latin, Central and South American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c129_f',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (female)

Latin, Central and South American origins (male)

Measure "Latin, Central and South American origins (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c107_m'
    );
```

Measure "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c107_m'
    );
```

Measure "Latin, Central and South American origins (male)" percent of "Total number of persons in private households (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c107_m',
      'denominator'
    );
```

Measure "Latin, Central and South American origins (male)" percent of "Total number of persons in private households (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c107_m',
      'denominator'
    );
```

denominator: Total number of persons in private households (male)

    );
```

Measure "Bolivian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c111_m'
    );
```

Measure "Bolivian (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c111_m',
      'denominator'
    );
```

Measure "Bolivian (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c111_m',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (male)

Brazilian (male)

Measure "Brazilian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c112_m'
    );
```

Measure "Brazilian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c112_m'
    );
```

Measure "Brazilian (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c112_m',
      'denominator'
    );
```

Measure "Brazilian (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c112_m',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (male)

Chilean (male)

Measure "Chilean (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c113_m'
    );
```

Measure "Chilean (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c113_m'
    );
```

Measure "Chilean (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c113_m',
      'denominator'
    );
```

Measure "Chilean (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c113_m',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (male)

Colombian (male)

Measure "Colombian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c114_m'
    );
```

Measure "Colombian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c114_m'
    );
```

Measure "Colombian (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c114_m',
      'denominator'
    );
```

Measure "Colombian (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c114_m',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (male)

Costa Rican (male)

Measure "Costa Rican (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c115_m'
    );
```

Measure "Costa Rican (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c115_m'
    );
```

Measure "Costa Rican (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c115_m',
      'denominator'
    );
```

Measure "Costa Rican (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c115_m',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (male)

Ecuadorian (male)

Measure "Ecuadorian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c116_m'
    );
```

Measure "Ecuadorian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c116_m'
    );
```

Measure "Ecuadorian (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c116_m',
      'denominator'
    );
```

Measure "Ecuadorian (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c116_m',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (male)

Guatemalan (male)

Measure "Guatemalan (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c117_m'
    );
```

Measure "Guatemalan (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c117_m'
    );
```

Measure "Guatemalan (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c117_m',
      'denominator'
    );
```

Measure "Guatemalan (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
```

```
    'ca.statcan.cols_nhs.t006c117_m',
    'denominator'
  );
```

denominator: Latin, Central and South American origins (male)

Guyanese (male)

Measure "Guyanese (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c118_m'
    );
```

Measure "Guyanese (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c118_m'
    );
```

Measure "Guyanese (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c118_m',
      'denominator'
    );
```

Measure "Guyanese (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c118_m',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (male)

Hispanic (male)

Measure "Hispanic (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c119_m'
    );
```

Measure "Hispanic (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c119_m'
    );
```

Measure "Hispanic (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c119_m',
      'denominator'
    );
```

Measure "Hispanic (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c119_m',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (male)

Honduran (male)

Measure "Honduran (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c120_m'
    );
```

Measure "Honduran (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c120_m'
    );
```

Measure "Honduran (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c120_m',
      'denominator'
    );
```

Measure "Honduran (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c120_m',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (male)

Latin, Central and South American origins, n.i.e. (male)

Measure "Latin, Central and South American origins, n.i.e. (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c130_m'
    );
```

Measure "Latin, Central and South American origins, n.i.e. (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c130_m'
    );
```

Measure "Latin, Central and South American origins, n.i.e. (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c130_m',
      'denominator'
    );
```

Measure "Latin, Central and South American origins, n.i.e. (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c130_m',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (male)

Maya (male)

Measure "Maya (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c121_m'
    );
```

Measure "Maya (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c121_m'
    );
```

Measure "Maya (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c121_m',
      'denominator'
    );
```

Measure "Maya (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c121_m',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (male)

Mexican (male)

Measure "Mexican (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c122_m'
    );
```

Measure "Mexican (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c122_m'
    );
```

Measure "Mexican (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
```

```
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_nhs.t006c122_m',
    'denominator'
  );
```

Measure "Mexican (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c122_m',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (male)

Nicaraguan (male)

Measure "Nicaraguan (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c123_m'
    );
```

Measure "Nicaraguan (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c123_m'
    );
```

Measure "Nicaraguan (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c123_m',
      'denominator'
    );
```

Measure "Nicaraguan (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c123_m',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (male)

Panamanian (male)

Measure "Panamanian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c124_m'
    );
```

Measure "Panamanian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c124_m'
    );
```

Measure "Panamanian (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c124_m',
      'denominator'
    );
```

Measure "Panamanian (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c124_m',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (male)

Paraguayan (male)

Measure "Paraguayan (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c125_m'
    );
```

Measure "Paraguayan (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c125_m'
    );
```

Measure "Paraguayan (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c125_m',
      'denominator'
    );
```

Measure "Paraguayan (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c125_m',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (male)

Peruvian (male)

Measure "Peruvian (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c126_m'
    );
```

Measure "Peruvian (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c126_m'
    );
```

Measure "Peruvian (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c126_m',
      'denominator'
    );
```

Measure "Peruvian (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c126_m',
```

```
    'denominator'
  );
```

denominator: Latin, Central and South American origins (male)

Salvadorean (male)

Measure "Salvadorean (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c127_m'
    );
```

Measure "Salvadorean (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c127_m'
    );
```

Measure "Salvadorean (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c127_m',
      'denominator'
    );
```

Measure "Salvadorean (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c127_m',
      'denominator'
    );
```

denominator: Latin, Central and South American origins (male)

Uruguayan (male)

Measure "Uruguayan (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c128_m'
    );
```

Measure "Uruguayan (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c128_m'
    );
```

Measure "Uruguayan (male)" percent of "Latin, Central and South American origins (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c128_m',
      'denominator'
    );
```

Measure "Uruguayan (male)" percent of "Latin, Central and South American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =

      'ca.statcan.cols_nhs.t006c007_f',
      'denominator'
    );
```

Measure "Acadian (female)" percent of "Other North American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c007_f',
      'denominator'
    );
```

denominator: Other North American origins (female)

American (female)

Measure "American (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c008_f'
    );
```

Measure "American (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c008_f'
    );
```

Measure "American (female)" percent of "Other North American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
```

```
    CDB_LatLng(40.7, -73.9),
    'ca.statcan.cols_nhs.t006c008_f',
    'denominator'
  );
```

Measure "American (female)" percent of "Other North American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c008_f',
      'denominator'
    );
```

denominator: Other North American origins (female)

Canadian (female)

Measure "Canadian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c009_f'
    );
```

Measure "Canadian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c009_f'
    );
```

Measure "Canadian (female)" percent of "Other North American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c009_f',
      'denominator'
    );
```

Measure "Canadian (female)" percent of "Other North American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c009_f',
      'denominator'
    );
```

denominator: Other North American origins (female)

New Brunswicker (female)

Measure "New Brunswicker (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c010_f'
    );
```

Measure "New Brunswicker (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c010_f'
    );
```

Measure "New Brunswicker (female)" percent of "Other North American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c010_f',
      'denominator'
    );
```

Measure "New Brunswicker (female)" percent of "Other North American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c010_f',
      'denominator'
    );
```

denominator: Other North American origins (female)

Newfoundlander (female)

Measure "Newfoundlander (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c011_f'
    );
```

Measure "Newfoundlander (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c011_f'
    );
```

Measure "Newfoundlander (female)" percent of "Other North American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c011_f',
      'denominator'
    );
```

Measure "Newfoundlander (female)" percent of "Other North American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c011_f',
      'denominator'
    );
```

denominator: Other North American origins (female)

Nova Scotian (female)

Measure "Nova Scotian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c012_f'
    );
```

Measure "Nova Scotian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c012_f'
    );
```

Measure "Nova Scotian (female)" percent of "Other North American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c012_f',
      'denominator'
    );
```

Measure "Nova Scotian (female)" percent of "Other North American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c012_f',
      'denominator'
    );
```

denominator: Other North American origins (female)

Ontarian (female)

Measure "Ontarian (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c013_f'
    );
```

Measure "Ontarian (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c013_f'
    );
```

Measure "Ontarian (female)" percent of "Other North American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c013_f',
      'denominator'
    );
```

Measure "Ontarian (female)" percent of "Other North American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c013_f',
      'denominator'
    );
```

denominator: Other North American origins (female)

Other North American origins, n.i.e. (female)

Measure "Other North American origins, n.i.e. (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c015_f'
    );
```

Measure "Other North American origins, n.i.e. (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c015_f'
    );
```

Measure "Other North American origins, n.i.e. (female)" percent of "Other North American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c015_f',
      'denominator'
    );
```

Measure "Other North American origins, n.i.e. (female)" percent of "Other North American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c015_f',
      'denominator'
    );
```

denominator: Other North American origins (female)

Québécois (female)

Measure "Québécois (female)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c014_f'
    );
```

Measure "Québécois (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c014_f'
    );
```

Measure "Québécois (female)" percent of "Other North American origins (female)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c014_f',
      'denominator'
    );
```

Measure "Québécois (female)" percent of "Other North American origins (female)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c014_f',
      'denominator'
    );
```

denominator: Other North American origins (female)

Other North American origins (male)

Measure "Other North American origins (male)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c006_m'
    );
```

Measure "Other North American origins (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c006_m'
    );
```

Measure "Other North American origins (male)" percent of "Total number of persons in private households (male)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c006_m',
      'denominator'
    );
```

Measure "Other North American origins (male)" percent of "Total number of persons in private households (male)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c006_m',
      'denominator'
    );
```

denominator: Total number of persons in private households (male)

    );
```

Measure "Métis single identity (total)" percent of "Total population - Aboriginal identity (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t001c004_t',
      'denominator'
    );
```

Measure "Métis single identity (total)" percent of "Total population - Aboriginal identity (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t001c004_t',
      'denominator'
    );
```

denominator: Total population - Aboriginal identity (total)

Total population - African origins (total)

Measure "Total population - African origins (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c131_t'
    );
```

Measure "Total population - African origins (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c131_t'
    );
```

Measure "Total population - African origins (total)" percent of "Total number of persons in private households (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c131_t',
      'denominator'
    );
```

Measure "Total population - African origins (total)" percent of "Total number of persons in private households (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c131_t',
      'denominator'
    );
```

denominator: Total number of persons in private households (total)

Central and West African origins (total) 2402

North African origins (total) 2419

Other African origins (total) 2427

Southern and East African origins (total) 2429

Central and West African origins (total)

Measure "Central and West African origins (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),

  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c144_t',
      'denominator'
    );
```

Measure "Guinean (total)" percent of "Central and West African origins (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c144_t',
      'denominator'
    );
```

denominator: Central and West African origins (total)

Ibo (total)

Measure "Ibo (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c145_t'
    );
```

Measure "Ibo (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c145_t'
    );
```

Measure "Ibo (total)" percent of "Central and West African origins (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c145_t',
      'denominator'
    );
```

Measure "Ibo (total)" percent of "Central and West African origins (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c145_t',
      'denominator'
    );
```

denominator: Central and West African origins (total)

Ivorian (total)

Measure "Ivorian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c146_t'
    );
```

Measure "Ivorian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c146_t'
    );
```

Measure "Ivorian (total)" percent of "Central and West African origins (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c146_t',
      'denominator'
    );
```

Measure "Ivorian (total)" percent of "Central and West African origins (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c146_t',
      'denominator'
    );
```

denominator: Central and West African origins (total)

Liberian (total)

Measure "Liberian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c147_t'
    );
```

Measure "Liberian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c147_t'
    );
```

Measure "Liberian (total)" percent of "Central and West African origins (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c147_t',
      'denominator'
    );
```

Measure "Liberian (total)" percent of "Central and West African origins (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c147_t',
      'denominator'
    );
```

denominator: Central and West African origins (total)

Malian (total)

Measure "Malian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c148_t'
    );
```

Measure "Malian (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c148_t'
    );
```

Measure "Malian (total)" percent of "Central and West African origins (total)" at one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c148_t',
      'denominator'
    );
```

Measure "Malian (total)" percent of "Central and West African origins (total)" within an area:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      ST_Buffer(CDB_LatLng(40.7, -73.9), 0.01),
      'ca.statcan.cols_nhs.t006c148_t',
      'denominator'
    );
```

denominator: Central and West African origins (total)

Nigerian (total)

Measure "Nigerian (total)" density per sq. kilometer for one point:

```
UPDATE {table_name}
  SET {new_numeric_column} =
    OBS_GetMeasure(
      CDB_LatLng(40.7, -73.9),
      'ca.statcan.cols_nhs.t006c149_t'
    );
```

Measure "Nigerian (total)" within an area:
